State Strategic Plan for Crown land submission: [Redacted]

**Activity**

Name of Activity: State Strategic Plan for Crown Land

Our Reference:: SSP Crown Land

**Please provide your details**

1. First name: [Redacted]

2. Last name: [Redacted]

3. Do you identify as Aboriginal or Torres Strait Islander?: [Redacted]

4. Are you completing this survey as part of an organisation?: No

5. Organisation:

6. Postal/street address: [Redacted]

7. Suburb: [Redacted]

8. State: [Redacted]

9. Postcode: [Redacted]

10. Email: [Redacted]

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I use Crown land for recreation, I care about Crown land management as a resident of New South Wales, Other

Other: I am a property officer at [Redacted] who deals with acquisitions of crown land and assists with management of of crown land for which [Redacted] is the crown land manager.

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Jobs and economic growth, Renewable energy, Other

Other: Public health benefits of crown land reserve network.

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Important

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Important

Facilitate investment on Crown land: Important

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Important

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Very important

Partner with the organisations that serve our communities: Very important

Strengthen and uphold compliance to ensure a fair go: Very important

Make Aboriginal land transfers a priority – and see them as an opportunity: Very important

Contribute to the ongoing recognition of native title rights: Very important

Explore co-management of land to generate mutual benefits: Very important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Important
Standardise leases and licensing for common activities:	Important
Simplify licensing for domestic waterfront structures:	Important
Reduce red tape for government entities managing Crown land:	Very important
Provide tools and resources to volunteer Crown land managers:	Important
Build understanding of native title:	Very important
Engage and support a new generation of Crown land managers:	Very important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Support plan addressing cutting red tape. In relation to this, enablers could be expanded to identify/include improving processes for acquisitions of crown land by public authorities, road closure processes, and disposal processes for unformed council public roads/excess crown roads. If this strategic plan could identify improvement of these processes it would provide better strategic basis for them to be worked on under supporting plans.

20. Where did you hear about the State Strategic Plan?:

Correspondence from the department

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Of minor importance

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Very important

We must conserve habitat for biodiversity. Many species will go extinct without protecting habitat. There are many parcels of crown land that are beautiful bushland, creeks, rivers, swimming holes and waterfalls. But they receive almost zero management, maintenance or protection. For example, in Tahmoor, the famous Mermaids Pool is a spectacular natural area. It is reminiscent of world renowned national parks like Kakadu. The scenery is stunning, but there is no management or maintenance. This place must become a national park to ensure it can be protected from visitor use, and to protect the habitat for biodiversity and for future generations. The economic value of Mermaids Pool is obvious - creating it as a national park would provide huge amounts of tourism for the local area.

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

**Please provide your feedback**

 Our Reference:: SSP Crown Land

**Please provide your details**

- 1. First name: [Redacted]
- 2. Last name: [Redacted]
- 3. Do you identify as Aboriginal or Torres Strait Islander?: [Redacted]
- 4. Are you completing this survey as part of an organisation?: No
- 5. Organisation: [Redacted]
- 6. Postal/street address: [Redacted]
- 7. Suburb: [Redacted]
- 8. [Redacted]
- 9. Postcode: [Redacted]
- 10. Email: [Redacted]

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Jobs and economic growth, Renewable energy

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Strongly agree

14. Please rate each of the priorities from 'Very important' to 'Not important at all'.

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: The commercial opportunities should NOT be forestry but employment of Aboriginal people to develop & teach culture through cold burns & nurture the future generations. They should be paid for their on ground work as well as intellectual rights.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Neutral

Expand regional tourism: Very important

Assist new sustainable energy, resources and infrastructure projects: Neutral

Facilitate investment on Crown land: Neutral

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Neutral

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Very important

Partner with the organisations that serve our communities: Important

Strengthen and uphold compliance to ensure a fair go: Very important

Make Aboriginal land transfers a priority – and see them as an opportunity: Very important

Contribute to the ongoing recognition of native title rights: Very important

Explore co-management of land to generate mutual benefits: Very important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: Cultural burns should be at the forefront. Education, shared space, any commercial venture should flow from this.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Neutral

Simplify licensing for domestic waterfront structures: Neutral

Reduce red tape for government entities managing Crown land: Important

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: Provide work for indigenous people.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.: We need to stop talking about learning from First Nation people & actually support & fund it, as a priority for health of land & bushfire management atop of upholding aboriginal culture & nurturing future leaders.

20. Where did you hear about the State Strategic Plan?: Social media

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:	Neutral
Expand regional tourism:	Neutral
Assist new sustainable energy, resources and infrastructure projects:	Neutral
Facilitate investment on Crown land:	Of minor importance
Prioritise the use of Crown land for green and open space in urban areas:	Important
Use Crown land to expand access to affordable housing:	Neutral
Support and restore environmental values on Crown land:	Important
Manage Crown land to build resilience in a changing climate:	Important
Sustain the places where people come together:	Important
Partner with the organisations that serve our communities:	Important
Strengthen and uphold compliance to ensure a fair go:	Neutral
Make Aboriginal land transfers a priority – and see them as an opportunity:	Very important
Contribute to the ongoing recognition of native title rights:	Very important
Explore co-management of land to generate mutual benefits:	Very important
Collaborate with Aboriginal groups in each place to improve outcomes:	Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Very important
Standardise leases and licensing for common activities:	Neutral
Simplify licensing for domestic waterfront structures:	Neutral

Reduce red tape for government entities managing Crown land:	Neutral
Provide tools and resources to volunteer Crown land managers:	Important
Build understanding of native title:	Very important
Engage and support a new generation of Crown land managers:	Very important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	Handover of Crown land manger roles to Indigenous community groups and provide training and support to Indigenous people to take on these management roles.
<b>Other feedback</b>	
19. Please provide any other comments about the draft State Strategic Plan for Crown land.:	This is so important. I support prioritising the handback of Crown land to Indigenous communities. This provides recognition of the important role they have in caring for country. It also is a way to recognise Indigenous communities as the valuable people they are in our Australian communities.
20. Where did you hear about the State Strategic Plan?:	Social media

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I am involved with a community or volunteer group that uses or maintains Crown land facilities, I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Jobs and economic growth, Renewable energy

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Of minor importance

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Important

Where do conservation, environmental values and biodiversity fit in? Crown Land in this strategy appears to be focused on development and growth and a "resource for use"; we believe there is not enough emphasis on the environmental values of Crown land. It is often a green space that should be preserved rather than housing developed for a few. Crown lands in NSW include many areas that still support relatively natural ecological communities representative of pre-colonised Australia. These landscapes are crucial for the ongoing survival of what's left of the diverse, complex natural landscape and character of NSW. Manly Dam is a classic example of this.

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Of minor importance

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Important

Facilitate investment on Crown land: Not at all important

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Of minor importance

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Very important

Partner with the organisations that serve our communities: Very important

Strengthen and uphold compliance to ensure a fair go: Important

Make Aboriginal land transfers a priority – and see them as an opportunity: Of minor importance

Contribute to the ongoing recognition of native title rights: Important

Explore co-management of land to generate mutual benefits: Very important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

It is unclear how environmental values will be weighed up against growth, commercial opportunities and economic progress. Some of the statements above are at odds with each other. How do we identify and preserve the landscapes that should form part of the "reserve" for cultural heritage, biodiversity survival, regeneration and climate resilience. How is 'green space' defined? How is affordable housing defined? Both appear to be honorable outcomes - but how are these weighed up against each other? Green space must contribute to urban habitat for threatened species and

ecological communities. What if a key piece of infrastructure is planned to go through Crown Land (eg NB Tunnel)? How can the natural environment/green space/ etc. ever compete if this strategy uses a Quadruple bottom line? Where are the waterways and catchment areas mentioned? Water and the protection of catchments are left out of this document entirely. Manly Dam catchment area is much larger than the actual Crown Land reserve, so there need to be protocols about how to work together.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.:

Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:

Very important

Standardise leases and licensing for common activities:

Important

Simplify licensing for domestic waterfront structures:

Neutral

Reduce red tape for government entities managing Crown land:

Neutral

Provide tools and resources to volunteer Crown land managers:

Very important

Build understanding of native title:

Very important

Engage and support a new generation of Crown land managers:

Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

We are wary of removal of "red tape". Due process and robust assessment are necessary to prevent damage to these important landscapes. In particular, engaging the community can be time consuming but is necessary, and it can save time if done well. Tools and resources for Crown Managers are very important. The roles of Local Government and State Park Advisory Committees and Crown Lands are confusing. Could there be common TORs for these? Employment opportunities in conservation and land management have been left unexplored. The Strategy should connect community engagement and job opportunities in conservation and land management with restoring environmental values and climate change resilience.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Crown land comprises 42% of all land in NSW. This is an excellent document although we are concerned at the emphasis that all Crown land is a "resource" for use. The Vision: Crown land supports resilient, sustainable and prosperous communities. We do not believe this vision would not align with the vision for Manly Dam, unless the communities referred to the natural environment. An area that is missing: The priority of wilderness: The 'quadruple bottom line' approach will prevent environmental values from ever being the most important consideration. This is a problem. Crown lands in NSW include many areas that still support relatively natural ecological communities representative of pre-colonised Australia. (eg Manly Dam). These landscapes are crucial for the ongoing survival of what's left of the diverse, complex natural landscape and character of NSW. Manly Dam (Manly Warringah War Memorial State Park) is the Kakadu of the Northern Beaches. If the quadruple bottom line is applied to this space - which is potentially happening - it can be carved off for a High School, for a Tunnel and for numerous developments along the edge for so called affordable housing or Retirement Villages. What protection to these spaces is provided

by this new State Strategic Plan? How would it be quarantined from development? Transparent assessment of conservation values and publicly available data are essential to achieving the draft Strategy outcomes. COVID has shown that people need their open space and escape from built-up areas. Please assist us to better conserve areas like these with the State Strategic Plan. Once it's gone, it's gone!

20. Where did you hear about the State Strategic Plan?:

Social media, Other

Other:

An advocacy body

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I am involved with a community or volunteer group that uses or maintains Crown land facilities, I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Biodiversity, Renewable energy

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Neutral

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Neutral

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: Ecologically sustainable development and use should be an overarching framework for the use and management of Crown land.

The environment warrants the highest priority in the triple bottom line hierarchy.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Important

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Important

Facilitate investment on Crown land: Of minor importance

Prioritise the use of Crown land for green and open space in urban areas: Important

Use Crown land to expand access to affordable housing: Of minor importance

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Neutral

Partner with the organisations that serve our communities: Neutral

Strengthen and uphold compliance to ensure a fair go: Neutral

Make Aboriginal land transfers a priority – and see them as an opportunity: Not at all important

Contribute to the ongoing recognition of native title rights: Important

Explore co-management of land to generate mutual benefits: Neutral

Collaborate with Aboriginal groups in each place to improve outcomes: Of minor importance

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: The Strategy is likely to give priority to economic and development outcomes and does not acknowledge the importance of protecting natural areas.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Important

Standardise leases and licensing for common activities: Neutral

Simplify licensing for domestic waterfront structures: Neutral

Reduce red tape for government entities managing Crown land:	Of minor importance
Provide tools and resources to volunteer Crown land managers:	Important
Build understanding of native title:	Neutral
Engage and support a new generation of Crown land managers:	Important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	Reducing red tape could compromise planning processes that take into account environmental assessment and community consultation and result in poor planning outcomes.

 Open or green space, Aboriginal land rights, Biodiversity

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Not at all important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:  
 Jobs, growth and commercial opportunities should NOT be first on the list of priorities. We have a diminishing quantity and quality of

ecosystems and biodiversity. The economy can survive without Crown land, sustainable quality of life and climate cannot.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Of minor importance

Expand regional tourism:

Assist new sustainable energy, resources and infrastructure projects: Not at all important

Facilitate investment on Crown land: Not at all important

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Not at all important

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Of minor importance

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Strongly disagree

14. Please rate each of the priorities from 'Very important' to 'Not important at all'.

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Not at all important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

It is of the highest importance at this point in history that priority is given to Crown Land being kept as greened space for an increasingly compromised environment of which local communities are dependent upon for their health and wellbeing. A variety of natural spaces for recreation sympathetic to the environment is essential e.g. coastal walks and forest walks. At this point in time, as recognised by the Premier of NSW's desire to protect koala habitat, that it is important to protect and expand existing ecological communities which provide essential wildlife habitat for fauna species. I would also like to see Bush Regen groups given more support. On Crown Land I would like to see more plants and trees planted and better care given to existing indigenous species. This is critical to provide a healthy environment for residents and a habitat for the survival of wildlife. During and after the bushfires of 2019-2020 I saw vulnerable birds and other small animals close to urban areas in the Bellingen Shire. They were fleeing drought and fire desperate for protection, food and homes in tree canopies, hollow trunks and related vegetation. I would like to see a similar approach to greening the state as taken by Wollongong City Council which has recently published its Urban Greening Strategy . I would like use of Crown Land be actioned actions by following the lead of the likes of Wollongong City Council which recognises that "Plants and trees cool our towns and cities, reduce pollution and attract investment. They also make us healthier, happier and more productive. Council is taking action to improve trees and plants in public spaces." Wollongong City Council viewed 20 August 2020

- Sustain the places where people come together: Important
- Partner with the organisations that serve our communities: Not at all important
- Strengthen and uphold compliance to ensure a fair go: Important
- Make Aboriginal land transfers a priority – and see them as an opportunity: Very important
- Contribute to the ongoing recognition of native title rights: Very important

Explore co-management of land to generate mutual benefits: Important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Of minor importance

Simplify licensing for domestic waterfront structures: Not at all important

Reduce red tape for government entities managing Crown land: Not at all important

Provide tools and resources to volunteer Crown land managers: Of minor importance

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Neutral

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: Initiatives should not enable commercial interests to proceed more easily. Protections need to remain strong.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

20. Where did you hear about the State Strategic Plan?: Other

Other: Friends in my community.

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I am involved with a community or volunteer group that uses or maintains Crown land facilities, I use Crown land for recreation, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Strongly agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Not at all important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Strongly agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:	Not at all important
Expand regional tourism:	Of minor importance
Assist new sustainable energy, resources and infrastructure projects:	Not at all important
Facilitate investment on Crown land:	Not at all important
Prioritise the use of Crown land for green and open space in urban areas:	Important
Use Crown land to expand access to affordable housing:	Of minor importance
Support and restore environmental values on Crown land:	Very important
Manage Crown land to build resilience in a changing climate:	Very important
Sustain the places where people come together:	Important
Partner with the organisations that serve our communities:	Neutral
Strengthen and uphold compliance to ensure a fair go:	Neutral
Make Aboriginal land transfers a priority – and see them as an opportunity:	Important
Contribute to the ongoing recognition of native title rights:	Important
Explore co-management of land to generate mutual benefits:	Of minor importance
Collaborate with Aboriginal groups in each place to improve outcomes:	Very important
Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:	These areas need to be maintained as part of the national estate, for the preservation of their natural assets.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Very important
Standardise leases and licensing for common activities:	Not at all important
Simplify licensing for domestic waterfront structures:	Not at all important
Reduce red tape for government entities managing Crown land:	Not at all important
Provide tools and resources to volunteer Crown land managers:	Very important
Build understanding of native title:	Very important

Engage and support a new generation of Crown land managers: Neutral

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: They need to be owned and maintained by government for their environmental assets

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Biodiversity

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Of minor importance

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: I think active recreation for residents of NSW should be on the top of this list. It keeps the population healthy, resilient and is a way for all residents to enjoy crown land.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Strongly disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Important

Expand regional tourism: Very important

Assist new sustainable energy, resources and infrastructure projects: Neutral

Facilitate investment on Crown land: Prioritise the use of Crown land for green and open space in urban areas: Important

Use Crown land to expand access to affordable housing: Not at all important

Support and restore environmental values on Crown land: Important

Manage Crown land to build resilience in a changing climate: Important

Sustain the places where people come together: Very important

Partner with the organisations that serve our communities: Very important

Strengthen and uphold compliance to ensure a fair go:

Make Aboriginal land transfers a priority – and see them as an opportunity: Of minor importance

Contribute to the ongoing recognition of native title rights: Neutral

Explore co-management of land to generate mutual benefits: Important

Collaborate with Aboriginal groups in each place to improve outcomes: Important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: I think crown land should stay available to all current residents of NSW. No building houses etc but keep it green, sustainable to assist in slowing climate change and a place for communities to get together. These places should not be commercialised but contribute to the outcome such as riding, biking and hiking trails for the community that don't disturb the existing biodiversity.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Strongly disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Very important
Standardise leases and licensing for common activities:	Neutral
Simplify licensing for domestic waterfront structures:	Not at all important

Provide tools and resources to volunteer Crown land managers:	Important
Build understanding of native title:	Important
Engage and support a new generation of Crown land managers:	Neutral
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:	Keep it natural, community focused. Especially with covid, we need crown land to be available to the community. Mountainbike trails for example in NSW are scarce. Especially at the advanced level. With so many new people having taken up mountainbiking since March we need more trails as they are crowded and getting dangerous.

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Biodiversity

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Strongly disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Not at all important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Neutral

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: Priority should be to ensure habitat survival for our native animals - why is this not even mentioned? Development has occurred at breakneck speed with little value placed on leaving habitat for

threatened species for future generations. Stop selling it off and developing land that needs to be safeguarded.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Strongly disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Of minor importance

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Important

Facilitate investment on Crown land: Not at all important

Prioritise the use of Crown land for green and open space in urban areas: Important

Use Crown land to expand access to affordable housing: Not at all important

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Important

Sustain the places where people come together: Of minor importance

Partner with the organisations that serve our communities: Of minor importance

Strengthen and uphold compliance to ensure a fair go: Important

Make Aboriginal land transfers a priority – and see them as an opportunity: Neutral

Contribute to the ongoing recognition of native title rights: Neutral

Explore co-management of land to generate mutual benefits: Not at all important

Collaborate with Aboriginal groups in each place to improve outcomes: Neutral

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: As mentioned previously, Crown land should be kept for future generations and for the preservation of species. Certainly not all of it is suitable for wilderness but at present too much of it is being bulldozed and developed without adequate consideration of the consequences to native wildlife.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Important

Simplify licensing for domestic waterfront structures: Neutral

Reduce red tape for government entities managing Crown land:	Neutral
Provide tools and resources to volunteer Crown land managers:	Important
Build understanding of native title:	Important
Engage and support a new generation of Crown land managers:	Important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	As long as these changes do not make it easier for developers to simply bulldoze through protections which are already too weak.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Renewable energy, Other

Other: Recreation

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Neutral

14. Please rate each of the priorities from 'Very important' to 'Not important at all'.

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Important

Expand green space, sustainable quality of life and climate change resilience: Important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: There needs to be space for recreation in the form of rec registration for motorcycle riders and 4wds. This will prevent illegal riders riding in out of bounds areas. NSW is one of the only states not supporting recreation registration for crown land bush riding. We want to take our children riding and to checkout the scenery, not be locked into very few expensive motocross parks.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Neutral

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Important

Facilitate investment on Crown land: Not at all important

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Not at all important

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?:

I use Crown land for recreation, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?:

Open or green space, Community use, Aboriginal land rights, Biodiversity

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.:

Disagree

14. Please rate each of the priorities from 'Very important' to 'Not important at all'.

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.:

Not at all important

Expand green space, sustainable quality of life and climate change resilience:

Very important

Strengthen and support evolving community connections:

Important

Work with Aboriginal communities to realise the potential of their land rights:

Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.:

Disagree

16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.

Support innovative and sustainable regional industries:	Of minor importance
Expand regional tourism:	Important
Assist new sustainable energy, resources and infrastructure projects:	Neutral
Facilitate investment on Crown land:	Not at all important
Prioritise the use of Crown land for green and open space in urban areas:	Important
Use Crown land to expand access to affordable housing:	Neutral
Support and restore environmental values on Crown land:	Important
Manage Crown land to build resilience in a changing climate:	Important
Sustain the places where people come together:	Important
Partner with the organisations that serve our communities:	Of minor importance
Strengthen and uphold compliance to ensure a fair go:	Very important
Make Aboriginal land transfers a priority – and see them as an opportunity:	Important
Contribute to the ongoing recognition of native title rights:	Neutral
Explore co-management of land to generate mutual benefits:	Neutral
Collaborate with Aboriginal groups in each place to improve outcomes:	Important
Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:	

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Very important
Standardise leases and licensing for common activities:	Neutral
Simplify licensing for domestic waterfront structures:	Neutral
Reduce red tape for government entities managing Crown land:	Not at all important
Provide tools and resources to volunteer Crown land managers:	Important
Build understanding of native title:	Neutral
Engage and support a new generation of Crown land managers:	Of minor importance

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:	As a recreational mountain bike rider, we need to recognize and formalize this activity on crown land on the Northern Beaches. There are minimal legal facilities to ride bikes and the trail networks on crown land are vitally important in order to minimize stress on only a few trails, whilst supporting the ever growing off-road cycling community

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

The process of having approval to engage in recreational activities on crown land should be streamlined. Crown lands has an opportunity to become a leader in New South Wales when it comes to delivering high-quality mountain bike experiences, given historic and long-term failings of all the land managers to provide facilities of adequate scale and quality of experience to meet the needs of a rapidly growing user group. I have recently moved house to the Northern Beaches simply to be closer to the lands with the best MTB trails in Sydney - but the management and access to these trails needs improving.

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I am an Aboriginal Land claimant over areas of Crown land

Other: I am a 'land claimant' by virtue of having traditional connection to the country I live in

12. What use/s of Crown land do you value?: Aboriginal land rights

Other: Note: not land rights through the NSW govt. law but rights to land because we are first families

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Neutral

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Of minor importance

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: Do not do anything until you have spoken with and made agreements with Traditional Aboriginal custodian/owners. As a Darug man who sat in with the Crown solicitors a part of our ILUA talks I know you have not done this. You have no right to do anything with this country. Go back and look at Australia's history of "acquiring sovereignty" it's only by force and does not make it lawful for "crown" administrators

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Of minor importance

Expand regional tourism: Of minor importance

Assist new sustainable energy, resources and infrastructure projects: Neutral

Facilitate investment on Crown land: Not at all important

Prioritise the use of Crown land for green and open space in urban areas: Important

Use Crown land to expand access to affordable housing: Not at all important

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Very important

Partner with the organisations that serve our communities: Neutral

Strengthen and uphold compliance to ensure a fair go: Neutral

Make Aboriginal land transfers a priority – and see them as an opportunity: Very important

Contribute to the ongoing recognition of native title rights: Neutral

Explore co-management of land to generate mutual benefits: Very important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: Again not the communities decision to make. Aboriginal land not Crown

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Important
Standardise leases and licensing for common activities:	Neutral
Simplify licensing for domestic waterfront structures:	Neutral
Reduce red tape for government entities managing Crown land:	Neutral
Provide tools and resources to volunteer Crown land managers:	Important
Build understanding of native title:	Very important

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I am involved with a community or volunteer group that uses or maintains Crown land facilities, I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Biodiversity, Jobs and economic growth, Renewable energy

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

- Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Very important
- Expand green space, sustainable quality of life and climate change resilience: Very important
- Strengthen and support evolving community connections: Very important
- Work with Aboriginal communities to realise the potential of their land rights: Not at all important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:	Very important
Expand regional tourism:	
Assist new sustainable energy, resources and infrastructure projects:	Very important
Facilitate investment on Crown land:	Neutral
Prioritise the use of Crown land for green and open space in urban areas:	Very important
Use Crown land to expand access to affordable housing:	Of minor importance
Support and restore environmental values on Crown land:	Very important
Manage Crown land to build resilience in a changing climate:	Very important
Sustain the places where people come together:	Very important
Partner with the organisations that serve our communities:	Very important
Strengthen and uphold compliance to ensure a fair go:	Very important
Make Aboriginal land transfers a priority – and see them as an opportunity:	Not at all important
Contribute to the ongoing recognition of native title rights:	Not at all important
Explore co-management of land to generate mutual benefits:	Neutral
Collaborate with Aboriginal groups in each place to improve outcomes:	Of minor importance
Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:	Not agreeable to "Develop" Crown land for residential use, or for profits to businesses that restricts public access to such lands, & re the "Explore Co-management" it likely means with Aboriginals---which I don't support & as such is POORLY worded & is misleading. There is NO MENTION of encouraging or maintaining FAUNA & FLORA access & use. This is a MAJOR failing & demands addressing.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Strongly agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Very important
---	----------------

Standardise leases and licensing for common activities:	Very important
Simplify licensing for domestic waterfront structures:	Very important
Reduce red tape for government entities managing Crown land:	Very important
Provide tools and resources to volunteer Crown land managers:	Very important
Build understanding of native title:	Of minor importance
Engage and support a new generation of Crown land managers:	Very important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	I don't support ANY changes that make Crown Land more easily used by business profit making enterprises, especially if to the disadvantage of the Public at large, NOR making it easier for Public Servants to deny or restrict access by the Public to using Crown Lands.
<b>Other feedback</b>	
19. Please provide any other comments about the draft State Strategic Plan for Crown land.:	A reminder. NO CLEAR mention of the FLORA & FAUNA anywhere in the Plan. This needs to CHANGE.
20. Where did you hear about the State Strategic Plan?:	Other
Other:	Via my Motor Cycle Club.
<b>Privacy &amp; confidentiality</b>	
Please indicate your confidentiality preference from the following options::	Semi-public

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?:

I have a lease to use Crown land, I use Crown land for my business, I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?:

Other

Other:

I use crown land to graze and manage livestock it is a critical part of our familys grazing business. It enables our family to interact with our livestock and horses and provides valuable feed resources to increase the viability of our business

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.:

Agree

14. Please rate each of the priorities from 'Very important' to 'Not important at all'.

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.:

Very important

Expand green space, sustainable quality of life and climate change resilience:

Neutral

Strengthen and support evolving community connections:	Neutral
Work with Aboriginal communities to realise the potential of their land rights:	Neutral
Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:	I think that by making crown land that is designated and paid for by the people of the nation not being able to be accessed so they feel comfortable on land once it has been designated as aboriginal only is divisive and racist
<b>Please provide your feedback</b>	
15. These are the best outcomes for Crown land over the next 10 years.:	Neutral
<b>16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.</b>	
Support innovative and sustainable regional industries:	Very important
Expand regional tourism:	Important

Build understanding of native title:	Of minor importance
Engage and support a new generation of Crown land managers:	Of minor importance

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

Its important that all people are able to access crown land of all colours. I have worked closely on aboriginal land for most of my life and I find that they are more than often mis managed only benefit certain families and are a racist concept that devides our nation by not enabling access for all peoples .With the tenuous times we live in we need to make people inclusive rather than follow divisive models to create harmony.All people should be treated equally.And the tax payers wont value something they cant access.Policy now effects the future generations access to our communal assets

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:	Developing mountain biking infrastructure that is respectful and inclusive of nature can generate eco tourism income that will benefit all users and importantly educate on the importance of preservation of the natural environment. NSW can learn from other States on how to successfully implement recreational use strategies.

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:	Outdoor green spaces that can be used for activities such as trail running, mountain biking etc, ie things you cannot do in your own backyard. Re mountain biking, formal trails are not a requirement eg Wylde, or Old Man Valley in Hornsby. These trails cost a lot of money to build and I believe are not necessary, compared to the minimal "natural" trails as built by volunteers in Westleigh, Kentlyn and Lucas Heights

Strengthen and support evolving community connections:

Important

Work with Aboriginal communities to realise the potential of their land rights:

Neutral

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:	Important
Expand regional tourism:	Very important
Assist new sustainable energy, resources and infrastructure projects:	Important
Facilitate investment on Crown land:	Neutral
Prioritise the use of Crown land for green and open space in urban areas:	Very important
Use Crown land to expand access to affordable housing:	Neutral
Support and restore environmental values on Crown land:	Very important
Manage Crown land to build resilience in a changing climate:	Very important
Sustain the places where people come together:	Very important
Partner with the organisations that serve our communities:	Important
Strengthen and uphold compliance to ensure a fair go:	Important
Make Aboriginal land transfers a priority – and see them as an opportunity:	Neutral
Contribute to the ongoing recognition of native title rights:	Neutral
Explore co-management of land to generate mutual benefits:	Neutral
Collaborate with Aboriginal groups in each place to improve outcomes:	Neutral
Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:	

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Very important
Standardise leases and licensing for common activities:	Important
Simplify licensing for domestic waterfront structures:	Important
Reduce red tape for government entities managing Crown land:	Important
Provide tools and resources to volunteer Crown land managers:	Very important
Build understanding of native title:	Important
Engage and support a new generation of Crown land managers:	Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:	I would like more access to crown land for all Australians so they can pursue recreational activities and enjoy the benefits of the crown lands we have in NSW. Fishing hunting camping hiking fossicking etc ..instead of locking up the bush it should be one and accessible to all people to use and enjoy.

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Neutral

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

I believe a strong emphasis should be placed on families being able to maintain a connection to the land and more emphasis should be put on creating and maintaining family friendly primitive or toileted camping areas. Camping areas are being closed at an alarming rate.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.:

Disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:

Of minor importance

Expand regional tourism:

Important

Assist new sustainable energy, resources and infrastructure projects:

Of minor importance

Facilitate investment on Crown land:

Important

Prioritise the use of Crown land for green and open space in urban areas:

Very important

Use Crown land to expand access to affordable housing:

Of minor importance

Support and restore environmental values on Crown land:

Very important

Manage Crown land to build resilience in a changing climate:

Important

Sustain the places where people come together:

Very important

Partner with the organisations that serve our communities:

Important

Strengthen and uphold compliance to ensure a fair go:

Very important

Make Aboriginal land transfers a priority – and see them as an opportunity:

Of minor importance

Contribute to the ongoing recognition of native title rights:

Neutral

Explore co-management of land to generate mutual benefits:

Neutral

Collaborate with Aboriginal groups in each place to improve outcomes:

Important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

I believe that family access to crown land is extremely important. Providing spaces in the bush for families to camp is of utmost importance.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.:

Disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Build understanding of native title: Important

Engage and support a new generation of Crown land managers: Important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:  
Make more spaces available for families to camp and enjoy nature.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

While I believe much of crown land should be returned to traditional owners where they are capable of proper land management, it is also very important for society that families are able to escape the confines of cities to camp and enjoy nature. There is a positive correlation between increasing prevalence of mental illness and social problems and reduction in access to natural places.

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Of minor importance

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Of minor importance

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: The noble sounding "Work with Aboriginal communities to realise the potential of their land rights" is code language for gaining contracted economic access to Aboriginal Titled Crown Lands. In this regard the

Plan For Crown Lands is a tool for further aboriginal dispossession, just when they got some of their land back again.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Of minor importance

Expand regional tourism: Of minor importance

Assist new sustainable energy, resources and infrastructure projects: Of minor importance

Facilitate investment on Crown land: Of minor importance

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Of minor importance

Support and restore environmental values on Crown land: Very important

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

For the younger generation to gain an appreciation of our native flora and fauna, we need to use crown land for outdoor activities that engage them while having minimal impact on the land. Active recreation such as single track mountain biking is one such activity. This should be prioritised for the use of appropriate crown land so that our youth spend their time outdoors in the bush environment.

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Renewable energy

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Of minor importance

Expand green space, sustainable quality of life and climate change resilience: Important

Strengthen and support evolving community connections: Neutral

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

I would like to see priority given to preserving and restoring as much natural habitat as possible within the Crown Land (CL) portfolio. Firstly by incorporating suitable CL into surrounding Conservation Areas or National Parks or creating new ones and secondly by the restoration of suitable CL to an approximation of it's original state where possible. Land clearing in NSW has both reduced biodiversity and climate change resilience. Species extinction rates are frightening in Australia and we are in fact bringing on our own extinction by ignoring how unsustainable our land management practices are. Where CL is badly degraded and the original habitat irretrievably lost, consideration of other purposes, such as renewable energy sites, would be welcome.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:	Neutral
Expand regional tourism:	Important
Assist new sustainable energy, resources and infrastructure projects:	Important
Facilitate investment on Crown land:	Of minor importance
Prioritise the use of Crown land for green and open space in urban areas:	Very important
Use Crown land to expand access to affordable housing:	Not at all important

Make Aboriginal land transfers a priority – and see them as an opportunity:	Important
Contribute to the ongoing recognition of native title rights:	Very important
Explore co-management of land to generate mutual benefits:	Neutral
Collaborate with Aboriginal groups in each place to improve outcomes:	Important
Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:	

By the grading I have applied above and what I have stated on the previous page of this online submission, my priorities revolve around environmental concerns - preservation and restoration of natural ecosystems on CL.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Neutral

Simplify licensing for domestic waterfront structures: Neutral

Reduce red tape for government entities managing Crown land: Neutral

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: Standardisation and reducing red tape should be approached with caution to ensure that each proposal to lease or licence CL is thoroughly examined on individual merit and taking into account ALL the historical data attached to each parcel of CL, including communications with ALL vested parties such as LGAs and local environmental and community groups in the past. The issue of transparency around all leases and licences granted is paramount.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.: I strongly feel that the emphasis on economic development of CL needs to shift towards maintaining and improving biodiversity and natural habitat restoration, which in turn will help future proof the state and country climatically. Too much of the Western Division has been given over to unsustainable agricultural practices, witnessed by the tragic decline of the Murray-Darling Basin.

20. Where did you hear about the State Strategic Plan?: Other

Other: From a friend, who was searching the CL website for information on another matter. Which brings me to the comment that Notifications & Decisions and Public Exhibitions info is currently very poorly disseminated but the department into the community for comment. In the future, I would like to see more significant notifications etc in the MSM being an obligatory part of any lease or licence process.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

I wish to see crown lands opened to licensed hunters under the public lands program as managed by DPI. To follow the same model as is provided for in State Forests. This successful program has allowed licensed hunters to assist in the management of pest species for many years now. It lessens the burden on land managers, provides for safe access to an ever increasing supply of willing participants and generates local income for country areas.

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Other

Other: If you want to stop urban crowding obviously you need to reduce immigration numbers. Aim for clean air, water, soil, increased carbon storage, plenty of green space and biodiversity and quality of life over quantity of people for residents. There are jobs in eco tourism, clean energy etc. Why is the only proposal from this government always for more urban expansion, habitat destruction, species loss and development? Do the voters actually run this state? This shortsightedness is going to be the legacy of the next Australians. Crown Lands were the communities legacy for a reason. They have been left untouched for a reason, they are not an opportunity to trade them in for a cut price short term solution to jobs. Think long term for a change. We lost Land Titles Office. Now you can't buy a topographic map for a reasonable price to take on a bush walk where you have no signal, or access ancestral information easily. Thanks. Not. Everything gets downgraded by flogging off public assets instead of value added for the public. A few wealthy people gain, the community loses their own assets forever, sold for a song to someone who does not care. I am so sick of it. Nothing is sacredly kept for the common good. Do you think

others before you haven't thought they could make a quick buck selling Crown land???. Just maybe they put the long term common good first for decades, centuries. And then in the click of one governments fingers their foresight is gone, lost. If they hadn't kept it you wouldn't have it. Keep Crown land for the COMMUNITY.

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Not at all important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: Protect Crown Land biodiversity from encroachment. Environmentally add to them e.g. introduce koalas

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Not at all important

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Not at all important

Facilitate investment on Crown land: Important

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Not at all important

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Very important

Partner with the organisations that serve our communities: Very important

Strengthen and uphold compliance to ensure a fair go: Neutral

Make Aboriginal land transfers a priority – and see them as an opportunity:	Important
Contribute to the ongoing recognition of native title rights:	Important
Explore co-management of land to generate mutual benefits:	Important
Collaborate with Aboriginal groups in each place to improve outcomes:	Very important
Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:	There has been plenty of opportunities through current development for the government to legislate affordable housing but they didn't. To propose to use Public Crown Land and green space for this is blackmail. Factor affordable housing into development on low ecologically valuable land. It's your job to be custodians for the community of our public land like previous governments. Industrial development should occur on land of LOW ecological value or already contaminated land.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Very important
Standardise leases and licensing for common activities:	Neutral
Simplify licensing for domestic waterfront structures:	Of minor importance
Reduce red tape for government entities managing Crown land:	Neutral
Provide tools and resources to volunteer Crown land managers:	Very important
Build understanding of native title:	Very important
Engage and support a new generation of Crown land managers:	Important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: This would have been easier to answer if you only loaded the relevant reference in your document rather than the whole document every time. There are so many plans up for discussion the public using their spare time needs an efficient site to respond to.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.: Keep the values of preservation that are the core of Crown Land

20. Where did you hear about the State Strategic Plan?: Other

Other: Community group

Explore co-management of land to generate mutual benefits: Very important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: Crown Land should not be for housing or any big business. It should be kept green, clean and well maintained in the event of bushfire. Ask the Aboriginal Groups to run it as they would see fit with their very important 'cold burns' and hopefully they won't exploit it like big business would. Fence these areas and maybe use small livestock to keep the grass / weeds down.

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Of minor importance

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: I feel that the stated priority of creating jobs is contradictory to the optimal use of crown land. Crown land should not be subject to commercialisation.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Of minor importance

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Of minor importance

Facilitate investment on Crown land: Of minor importance

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Not at all important

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Neutral

Sustain the places where people come together: Very important

Partner with the organisations that serve our communities: Very important

Strengthen and uphold compliance to ensure a fair go: Neutral

Make Aboriginal land transfers a priority – and see them as an opportunity: Important

Contribute to the ongoing recognition of native title rights: Important

Explore co-management of land to generate mutual benefits: Important

Collaborate with Aboriginal groups in each place to improve outcomes: Important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: AS per previous comment. le Crown land should not be used for commercial projects. Affordable housing is not compatible with preferred use of crown lands nor is energy production sites.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Important

Standardise leases and licensing for common activities: Important

Simplify licensing for domestic waterfront structures:	Important
Reduce red tape for government entities managing Crown land:	Important
Provide tools and resources to volunteer Crown land managers:	Very important
Build understanding of native title:	Important
Engage and support a new generation of Crown land managers:	Important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Of particular to me is the crown land surrounding the beachside hamlet of Mylestom. Mylestom is situated on a very narrow strip of land between the Bellinger River and the ocean, in some places only about one hundred metres wide. It is particularly vulnerable due to erosion from both the river and the ocean. Any future development of the area will increase this erosion and threaten the existence of the village itself. It currently has managed to maintain its unique village atmosphere due to being surrounded by crown land. It is vital that this land be protected as a buffer zone. Mylestom is one of very few villages on the east coast which has not been developed.

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I am involved with a community or volunteer group that uses or maintains Crown land facilities, I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Neutral

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Not at all important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

1) Maintenance and Restoration of Biodiversity Current legislation does not protect biodiversity. NSW has one of the highest rates of extinction in the world. Maintaining the environment to boost biodiversity is crucial to this.  
 2) Protection of Endangered Species The Federal government has the capacity to save species from extinction however this power is not exercised. It is imperative that NSW has a legislative framework to arrest species extinction without Federal intervention.  
 3) Protection of Water and Other Resources from Commercial Interests NSW is the only place in the world that allows risk of fossil fuel & resource extraction such as mining and logging to undermine its water resources. This is a failure of governance that requires urgent redress.  
 4) Protection from Mining Activities and Fossil Fuel Extraction It is imperative that any new legislation protects the State of NSW and its citizens from activities that deplete its resources and that adds to the severity of the Global Climate Crisis. Legislation must be implemented to uphold Australia's Paris Agreement on the limitation of Global Warming to less than 2 degrees Celsius. Placing limitations on logging and mining on Crown Lands is an effective response to protecting NSW for future generations.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

- Support innovative and sustainable regional industries: Of minor importance
- Expand regional tourism: Of minor importance
- Assist new sustainable energy, resources and infrastructure projects: Very important
- Facilitate investment on Crown land: Not at all important
- Prioritise the use of Crown land for green and open space in urban areas: Important
- Use Crown land to expand access to affordable housing: Neutral
- Support and restore environmental values on Crown land: Very important
- Manage Crown land to build resilience in a changing climate: Very important
- Sustain the places where people come together: Important
- Partner with the organisations that serve our communities: Neutral
- Strengthen and uphold compliance to ensure a fair go: Not at all important
- Make Aboriginal land transfers a priority – and see them as an opportunity: Very important
- Contribute to the ongoing recognition of native title rights: Very important
- Explore co-management of land to generate mutual benefits: Important

Collaborate with Aboriginal groups in each place to improve outcomes: Important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Not at all important

Simplify licensing for domestic waterfront structures: Not at all important

Reduce red tape for government entities managing Crown land: Not at all important

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Of minor importance

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: Agriculture should not be on Crown Land. We already have 51% of our land in Australia used for agriculture and produce more food than we need, sometimes large amounts being wasted. With help from aboriginal people who know the land it should be regenerated.

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Biodiversity

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Not at all important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Not at all important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: Crown land should not be sold off or leased to private enterprise under any circumstances. It should remain open to the wider general public who all have an equal right to access this land as members of the commonwealth.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Not at all important

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Not at all important

Facilitate investment on Crown land: Not at all important

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Not at all important

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Important

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Very important
Standardise leases and licensing for common activities:	Important
Simplify licensing for domestic waterfront structures:	Important
Reduce red tape for government entities managing Crown land:	Important
Provide tools and resources to volunteer Crown land managers:	Important
Build understanding of native title:	Not at all important
Engage and support a new generation of Crown land managers:	Important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	The government should allocate resources to manage crown lands, not outsource the management to private entities. Government should invest in basic infrastructure such and unlockable gates, camping grounds, usable roads, reforestation etc

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:  
 The crown land should be opened up for recreation and 100% access maintained. NO LOCKED GATES. TSRs should allow redefined passive recreation, including camping, vehicular access, firewood collection and dogs in leads. Allowing people into vacant lands promotes self management, where users keep the roads clear and don't feel like a criminal for parking their car, or riding a motorbike, or cutting some firewood from deadfall. And what is wrong with going and camping in a TSR? It doesn't hurt anyone.

Other:

12. What use/s of Crown land do you value?: Open or green space, Aboriginal land rights, Biodiversity, Other

Other: Conservation

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Strongly disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: 'Jobs and growth', though important, do not require the exploitation of protected crown lands. Environmental protection must be of the highest priority - whilst generating employment in this pursuit. The science is conclusive in support of sustainable industries.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Very important

Expand regional tourism: Important

Strengthen and uphold compliance to ensure a fair go:

Make Aboriginal land transfers a priority – and see them as an opportunity: Important

Contribute to the ongoing recognition of native title rights: Very important

Explore co-management of land to generate mutual benefits: Important

Collaborate with Aboriginal groups in each place to improve outcomes:

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: Tourism need be regulated so as to ensure minimal environmental impact. So too with 'investment' facilitated. Affordable housing is stymied by unregulated foreign investment. 'Brown sites' need be utilized, so as to prevent further ecological destruction at the hands of developers. People may 'come together' in areas that are not deemed (by reputable scientists) environmentally sensitive. A 'fair go' is, here, ill-defined and thus cannot be consented to under an informed consideration. Aboriginal corporations (e.g: land councils) need be regulated and of transparent accounts and interpersonal relationships before being considered as valid ('and transfers'; 'benefits') indigenous voice. When defining those entities/organisations that, supposedly, 'serve our communities' a clear and rigorous rationale need be

presented and accounted to. The philanthropic rhetoric deployed by many is a thin veneer for exploitative corporate interference. Again, logical processes determine the more destructive results of so-called partnerships...

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Neutral

Simplify licensing for domestic waterfront structures: Of minor importance

Reduce red tape for government entities managing Crown land:

Provide tools and resources to volunteer Crown land managers: Neutral

Build understanding of native title: Neutral

Engage and support a new generation of Crown land managers: Neutral

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

The current government is littered with mining interests! Thus, when language suggesting we 'simplify licensing', reducing 'red tape' is used, it generally manifests as removal of environmental protections (e.g: clean drinking water). Such actions are, essentially, criminal. Again, the science is clear in this assertion. For a true democratic mechanism there need be complete transparency, not the merely 'more' (though this is a start). The character of 'volunteer' or 'new generation' 'crown land managers' must be clearly stated and strictly applicable, only, to those of the moral and ethical identity to hold such mantle. Again, this current government seeks to employ mining executives - a practice that is criminal in its intentional conflict of interests, let alone destruction of human rights. There is nothing plausible deniable about this political criminality. When rhetoric such as that which asserts we "build understanding of native title" is here applied, one is justified in remaining dubious of what the word "build" means under this application. The interpretation of the various iterations of the 'Native Title Act' are housed within the records of (High Court) law. Awareness of their ramifications needn't be built by political bodies, but rather, approached pedagogically by teachers and Aboriginal elders and other experts of law. The connotation of a built understanding hosts the sophistication of manipulated perception. It is obvious to see the 'understanding' of Native title all around (See: Rio Tinto and desecration of sacred indigenous sites).

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Any industries that primarily seek land exploitation ('resources sector'; developers) need be excluded from this process. Their fundamental goals are contrary to progressive land management (sustainable environmental goals; indigenous rights). Any permitted inclusion of interference by such corporate entities is blatant circumnavigation of due process. Politicians aiding and abetting (let alone benefiting from) such conflicted interests will be held to account.

20. Where did you hear about the State Strategic Plan?:

Social media, Print media, Google search, Other

Other:

There are entire cohorts of academics, nation wide, following the actions of the current government.

I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?:

Open or green space, Community use, Aboriginal land rights, Biodiversity, Jobs and economic growth, Renewable energy

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.:

Agree

14. Please rate each of the priorities from 'Very important' to 'Not important at all'.

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Of minor importance

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

The utmost priority for crown land as a whole, considering that the vast majority of crown land is covered in forest, should be proper and effective fire management using aboriginal guided methods. Otherwise we will end up with a repeat of last season's fires. The next priority should be to find every possible native title claimant and assist them in getting their land back so they have a safe place to live and avoid contact with racists. They should then be assisted with free and professional advice and assistance in aiding them to become an effective and professional land manager if needed.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.:

Strongly agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:

Important

Expand regional tourism:

Very important

Assist new sustainable energy, resources and infrastructure projects:

Important

Facilitate investment on Crown land:

Neutral

Prioritise the use of Crown land for green and open space in urban areas:

Partner with the organisations that serve our communities:

Very important

Strengthen and uphold compliance to ensure a fair go:

Very important

Make Aboriginal land transfers a priority – and see them as an opportunity:

Very important

Contribute to the ongoing recognition of native title rights:

Very important

Explore co-management of land to generate mutual benefits:

Very important

Collaborate with Aboriginal groups in each place to improve outcomes:

Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

Since all crown land is effectively still property of the queen and on her behalf the NSW gov, in other words, it's never been paid for by anyone. No one, either black or white, has ever been paid a cent by the English monarchy or any Australian gov for possession of that land. That means it all still belongs to the descendants of the original owners because it is stolen not bought. Freehold titles are bought from someone else who stole it, but at least the current owners are honest. Not like the Australian gov's who continue to hang on to their stolen goods.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Important

Standardise leases and licensing for common activities: Neutral

Simplify licensing for domestic waterfront structures: Neutral

Reduce red tape for government entities managing Crown land: Of minor importance

Provide tools and resources to volunteer Crown land managers:

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: Make extra effort to engage with local indigenous people about what they would like to see and actively invite them to have a say in what happens.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

5. Organisation:

6. Postal/street address: [Redacted]

7. Suburb: [Redacted]

8. State: [Redacted]

9. Postcode: [Redacted]

10. Email: [Redacted]

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I am involved with a community or volunteer group that uses or maintains Crown land facilities, I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Jobs and economic growth, Renewable energy

Other: Single track Mountain Biking for active recreation

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Strongly disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Of minor importance

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

This priority list implies enabling job growth and commercial interest is the highest priority, and we have seen this taking preference above all other uses for some time. While this is important, it is not nearly as important as Aboriginal ties to the land, actively battling climate change and strengthening community connections. The priorities should be reworded to emphasise an ACTIVE battle to reduce climate change, not just expand climate change resilience within a framework that focuses on economic growth.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.:

Disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

- Support innovative and sustainable regional industries: Important
- Expand regional tourism: Important
- Assist new sustainable energy, resources and infrastructure projects: Very important
- Facilitate investment on Crown land: Important
- Prioritise the use of Crown land for green and open space in urban areas: Very important
- Use Crown land to expand access to affordable housing: Not at all important
- Support and restore environmental values on Crown land: Very important
- Manage Crown land to build resilience in a changing climate: Very important
- Sustain the places where people come together: Important
- Partner with the organisations that serve our communities: Very important
- Strengthen and uphold compliance to ensure a fair go: Neutral
- Make Aboriginal land transfers a priority – and see them as an opportunity: Important
- Contribute to the ongoing recognition of native title rights: Very important
- Explore co-management of land to generate mutual benefits: Very important
- Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

We should not just throw in the towel and "Manage Crown land to build resilience in a changing climate". We should be managing crown land to actively drive reductions in climate change. Regional tourism and investment in crown land should be encouraged and supported specifically where it strengthens action to reduce climate change. Crown land is not the answer for affordable housing - removing green space to build new housing sprawl, thereby driving longer and longer commutes does not help climate change, which is the biggest challenge we have as a society other than COVID-19.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Strongly disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Important

Simplify licensing for domestic waterfront structures: Not at all important

Reduce red tape for government entities managing Crown land: Very important

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

"Simplify licencing for domestic waterfront structures" sounds like making it easier to build new structures on waterfront, which seems to go completely against nearly everything else in this plan so far.  
"Standardise leases and licensing for common activities" needs to include simplifying the leases and licenses, not just standardising them - a 100 page form that takes 3 months to approve could be a standard, but that would definitely not increase community use.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

20. Where did you hear about the State Strategic Plan?: Other

Other: community organisation that uses and maintains facilities on crown land - specifically mountain biking single track for active recreation

Make Aboriginal land transfers a priority – and see them as an opportunity: Not at all important

Contribute to the ongoing recognition of native title rights: Not at all important

Explore co-management of land to generate mutual benefits: Important

Collaborate with Aboriginal groups in each place to improve outcomes: Important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: Specific focus should be on allowing low impact recreation activities within crown land, specifically Mountain Biking / MTB trails that are constructed to IMBA standard. I don't believe transfer of Crown Land to Aboriginal Communities, particularly the Sydney MLALC, can be at all consistent with any Crown Land strategy. MLALC have proven time and time again that they will "lock up" land that is transferred to them, allow the land to degrade, then once the land has lost community value / desire from the community to protect it, seek to develop the land. This has occurred at Bantry Bay, and attempts are underway to achieve the same result in Belrose (Ralston Ave), Oxford Falls and Red Hill. As such any strategy in the space should be of co-management and/or transfer to National Parks.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Important

Standardise leases and licensing for common activities: Neutral

Simplify licensing for domestic waterfront structures: Neutral

Reduce red tape for government entities managing Crown land: Important

Provide tools and resources to volunteer Crown land managers: Important

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: Support of recreation in Crown Land, specifically mountain biking. E Ensure that any transfer of land to Aboriginal groups does not result in future degradation or development of the land.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Many areas of Crown Land are adjacent to National Parks, particularly in the Northern Beaches area [REDACTED]. The community places the same value on these areas as they do the National Parks and most would be surprised to find out that they are not protected in the same way. Areas such as this should be transferred to National Parks, to ensure that this bushland is protected. Other areas are well used for recreation, such as Mountain biking. This existing use should be recognised and formalised. It would help to prevent the transfer of lands under Native Title. While I fully support Aboriginal Communities taking ownership of their lands there is a history on the Northern Beaches of land being claimed, degraded, community locked out and then subsequently developed into housing. Valid and ongoing community of this land was not recognised.

12. What use/s of Crown land do you value?: Other

Other: Mountain Bike trails. With National Park somewhat against mountain biking trails with in their tenure, it would be ideal to see some crow land sites to be turned into Mountina Bike trail networks and or regional bike parks. Mountain biking proved itself to be economically beneficial to any town that had a network close by.

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:  
Ensure public access to waterfronts and right of passage through crown land. There are areas of Crown land such as roads where leases have been granted either side of the road. But lease holders have gated / fenced off the crown access. This should not be allowed. Safer hiking, bicycle touring routes through forest areas for example would be possible if this sort of practice was stopped. Crown land should be subject to a right of passage to hikers and walkers as is the case in England.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Very important
Standardise leases and licensing for common activities:	Neutral
Simplify licensing for domestic waterfront structures:	Of minor importance
Reduce red tape for government entities managing Crown land:	Neutral
Provide tools and resources to volunteer Crown land managers:	Important
Build understanding of native title:	Important
Engage and support a new generation of Crown land managers:	Important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	The simplifying licensing enabler is less important to me than an enabler that ensures public access to waterfronts. Far too much river and coastline has been blocked off in the name of private land holding.

**Other feedback**

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Neutral

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

The Minister seeks to "...provide better access to quality, green, open public space for people..." and talks about "...the greatest public benefit..." Further into the document note is made of the changing needs of our communities and how public land can contribute to social well-being. A Priority is "...strengthening and supporting evolving community connections..." with one important outcome of this being strengthening and upholding compliance to ensure a fair go. On page 45 this is taken a little further on a "Showground of the Future" diagram where disability accessible bathrooms are noted. All Showgrounds should have these facilities yet, sadly, many, including the Mullumbimby Showgrounds, do not. I understand past applications for disability accessible bathrooms for Showgrounds that cater for up to 80 rough campers, three to four thousand visitors to the weekly Farmers Market, the annual Mullumbimby Agricultural Show, and many other activities large and small have not been successful. I suspect Crown Lands and the Mullumbimby Land Managers, jointly and/or severally, are in breach of their obligations under the Commonwealth Disability Discrimination Act 1992 and companion NSW Acts. This does not achieve "...the greatest public benefit..." or strengthen and support evolving community connections. I suspect Mullumbimby is not alone and suitable amenities for disabled people are not available in other Showgrounds. Amenities and access for the disabled (as defined in the Act) must become a clear outcome of Priority Three. It would ensure ALL who access the States Showgrounds get a fair go.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Engage and support a new generation of Crown land managers: Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

Please see my comments at Question 14. All of the above are worthwhile initiatives BUT while disability access and the disabled appear to be ignored the Strategic Plan fails at the first hurdle. That said, I believe engaging and supporting a new generation of Land Managers is very important. While my experience is limited I have found the ingrained attitudes and limited aspirations of some of my fellow Board members disturbing to say the least. Changing this situation will only occur if more Land Managers from the broader community are involved. It may involve expanding the number of members on Land Manager Boards... which will not be a bad thing if more diverse attitudes and approaches to the role of Showgrounds in the community emerge.

15. These are the best outcomes for Crown land over the next 10 years.: Strongly agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Very important

Expand regional tourism:	Very important
Assist new sustainable energy, resources and infrastructure projects:	Important
Facilitate investment on Crown land:	Important
Prioritise the use of Crown land for green and open space in urban areas:	Important
Use Crown land to expand access to affordable housing:	Neutral
Support and restore environmental values on Crown land:	Important
Manage Crown land to build resilience in a changing climate:	Important
Sustain the places where people come together:	
Partner with the organisations that serve our communities:	Very important
Strengthen and uphold compliance to ensure a fair go:	Very important
Make Aboriginal land transfers a priority – and see them as an opportunity:	Neutral
Contribute to the ongoing recognition of native title rights:	Important
Explore co-management of land to generate mutual benefits:	Important
Collaborate with Aboriginal groups in each place to improve outcomes:	Important
Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:	

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Important
Standardise leases and licensing for common activities:	Important
Simplify licensing for domestic waterfront structures:	Neutral
Reduce red tape for government entities managing Crown land:	Important
Provide tools and resources to volunteer Crown land managers:	Very important
Build understanding of native title:	Neutral
Engage and support a new generation of Crown land managers:	Very important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

20. Where did you hear about the State Strategic Plan?: Radio, Crown Lands website, Correspondence from the department

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Neutral

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Neutral

Expand green space, sustainable quality of life and climate change resilience: Important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Neutral

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

Properties given to the State or Crown in busy urban areas should be returned to local community organisations. The current setup is disgusting, arrogant, far behind the times. Parks hardly used, beaches captive to the wishes of old people.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Neutral

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Neutral

Facilitate investment on Crown land: Important

Prioritise the use of Crown land for green and open space in urban areas: Important

Use Crown land to expand access to affordable housing: Not at all important

Support and restore environmental values on Crown land: Important

Manage Crown land to build resilience in a changing climate: Not at all important

Sustain the places where people come together: Very important

Partner with the organisations that serve our communities: Very important

Strengthen and uphold compliance to ensure a fair go: Neutral

Make Aboriginal land transfers a priority – and see them as an opportunity: Neutral

Contribute to the ongoing recognition of native title rights: Neutral

Explore co-management of land to generate mutual benefits: Neutral

Collaborate with Aboriginal groups in each place to improve outcomes: Important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: In central Sydney new policies are essential!

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Neutral

Standardise leases and licensing for common activities: Neutral

Simplify licensing for domestic waterfront structures:	Neutral
Reduce red tape for government entities managing Crown land:	Important
Provide tools and resources to volunteer Crown land managers:	Neutral
Build understanding of native title:	Neutral
Engage and support a new generation of Crown land managers:	Neutral
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	Stop the jobs for life mentality!!! Contracts should be 5 years with possible 5 years extension and the n off they go out of the organisation!!
<b>Other feedback</b>	
19. Please provide any other comments about the draft State Strategic Plan for Crown land.:	There is currently a strong 'Sheriff' mentality that needs to be done away with. This idea that because you are old and have been working for the organisation for a long time you have more say. New people, young people, those that understand apps, social media, mental health pediatrics, teenage bonding, farming, etc. Example to get you thinking app: Plantsnap. Take a look!
20. Where did you hear about the State Strategic Plan?:	Social media

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Important
Standardise leases and licensing for common activities:	Important

Simplify licensing for domestic waterfront structures:

Reduce red tape for government entities managing Crown land: Important

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Important

Engage and support a new generation of Crown land managers: Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: Recognising existing recreational uses of crown land where activities are not undertaken under a lease or existing support from land managers (eg rock climbing); and supporting these activities with infrastructure such as parking, trails and camping.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

I would like to highlight that there is a notable amount of rockclimbing undertaken on crown land, with strong potential for more. This is an activity with a strong tourism potential, drawing individuals and climbing clubs from around the country. It is also a low impact activity and is extremely compatible with maintaining existing environmental values. It is further an important activity for mental health, fostering independence and fitness for a large and growing diverse community of people. Very specific geography and geology is required for high quality climbing areas, and these areas are of substantial value to the community, especially when accessibility is good. It is not however typically undertaken as a formal activity under a land manager or lease, being a grassroots community endeavour. Supporting the continued use of crown land for this activity without the introduction of red tape or barriers is very important to this community.

**Please provide your feedback**

11. Which of the following options best indicates your current or past use I am involved with a community or volunteer group that uses or maintains or interest in Crown land in New South Wales?:  
 Wales?:

Other:

12. What use/s of Crown land do you value?: Aboriginal land rights, Biodiversity

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Neutral

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Of minor importance

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Neutral

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

Most important is to make sure no damage is done to the environment and every care is taken to protect the wildlife and their habitats. It is important to seek advice from Aboriginal elders with respect to how protect the land despite new developments being necessary - e.g. no destruction of habitats of new housing. Save the koala!

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Of minor importance

Expand regional tourism: Neutral

Assist new sustainable energy, resources and infrastructure projects: Not at all important

Facilitate investment on Crown land: Not at all important

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Neutral

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Important

Partner with the organisations that serve our communities: Important

Strengthen and uphold compliance to ensure a fair go: Important

Make Aboriginal land transfers a priority – and see them as an opportunity: Very important

Contribute to the ongoing recognition of native title rights: Very important

Explore co-management of land to generate mutual benefits: Very important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

The most important of the priorities is to work with the Aboriginal community - they know best how to protect the environment. A pristine environment will attract a lot of tourists who value Nature and what she has to offer.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Important

Standardise leases and licensing for common activities:	Neutral
Simplify licensing for domestic waterfront structures:	Of minor importance
Reduce red tape for government entities managing Crown land:	Neutral
Provide tools and resources to volunteer Crown land managers:	Neutral
Build understanding of native title:	Very important
Engage and support a new generation of Crown land managers:	Important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	Management of waterways is also of great importance since the plan includes access to waterways. This could be an opportunity to manage areas where people can water ski and jet ski given that these activities are so damaging to marine life, not to mention their public nuisance value. In planning waterway access, consider making this available in areas where boating activities are likely to have minimal impact.
<b>Other feedback</b>	
19. Please provide any other comments about the draft State Strategic Plan for Crown land.:	What an opportunity this is to protect our great land and its wildlife, whilst at the same time restoring the environment so we can all enjoy all that Nature has to offer.

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

Needs to be a stronger focus on the role of Crown Lands to improve the biodiversity of the NSW environment. It is unclear how environmental values will be weighed up against growth, commercial opportunities and economic progress. Principles that should guide the strategy ● First Nations people as owners/co-managers of Crown Land ● Should prevent disposal of ANY Crown Land until Treaty ● Environmental values must be a key priority and not subjugated to economic goals ● Crown Lands should not be privatised or sold This means: ● Investment in Crown Land so that land does not become degraded ● Crown Land is our land and must not be privatised or excessively commercialised ● Ensure costs are not unfairly shifted to local councils or Aboriginal Land Councils. Travelling stock reserves (TSR): TSRs are critical conservation assets across much of NSW. They retain threatened species, Endangered Ecological Communities and vegetated remnants. TSRs complement the protected area network and play an essential role in maintaining the connectivity of habitats at the landscape scale. Local Land Services is responsible for leasing Crown land for grazing - but are permits ensuring sustainable land use? TSRs need special attention that they don't get in this draft Strategy.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

- Support innovative and sustainable regional industries: Important
- Expand regional tourism: Neutral
- Assist new sustainable energy, resources and infrastructure projects: Very important
- Facilitate investment on Crown land: Neutral
- Prioritise the use of Crown land for green and open space in urban areas:
- Use Crown land to expand access to affordable housing:
- Support and restore environmental values on Crown land:
- Manage Crown land to build resilience in a changing climate: Very important
- Sustain the places where people come together: Important

- Make Aboriginal land transfers a priority – and see them as an opportunity: Very important
- Contribute to the ongoing recognition of native title rights: Important
- Explore co-management of land to generate mutual benefits: Important
- Collaborate with Aboriginal groups in each place to improve outcomes: Important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

Employment opportunities in conservation and land management have been left unexplored. The strategy should connect community engagement and job opportunities in conservation and land management with restoring environmental values and climate change resilience. The plan must include biodiversity including specific targets ● Connectivity between green spaces is essential and crown land is critical for this ● Need more focus on urban greening and green space for community access - passive and active spaces ● Land clearing is the elephant in the room and must be addressed ● Western Lands are being significantly degraded under the lease system which is an effective sale of these lands Red tape: I am wary of proposals to reduce red tape. The draft strategy suggests doing so to allow government entities managing Crown land to more efficiently carry out “low risk” activities. Due process and robust assessment are necessary to prevent damage to these important landscapes. In particular, engaging the community can be time-consuming but is necessary, and it can save time if done well. “Greenspace”: Prioritising the expansion of green space holds promise, but in this Strategy, how is ‘green space’ defined? It seems to be everything from open space to a ‘green grid’ across greater Sydney. Green space must contribute to urban habitat for threatened species and ecological communities.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

- Make more of our information available and transparent: Very important

- Build understanding of native title: Important
- Engage and support a new generation of Crown land managers: Important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

The “enablers” aren’t sufficient to achieve priorities or the desired outcomes Red tape: I am wary of proposals to reduce red tape. The draft strategy suggests doing so to allow government entities managing Crown land to more efficiently carry out “low risk” activities. Due process and robust assessment are necessary to prevent damage to these important landscapes. In particular, engaging the community can be time-consuming but is necessary, and it can save time if done well.

6. Postal/street address: [Redacted]  
7. Suburb: [Redacted]  
8. State: [Redacted]  
9. Postcode: [Redacted]  
10. Email: [Redacted]

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I use Crown land for recreation

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Other

Other:

I like that what happens on crown land is for us, therefore I oppose mining, especially when my taxes pay for its infrastructure and the money goes overseas. I also hope that you have Indigenous Australians on your boards as an integral part of your decision making and not just to consult "later".

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: I believe there should be job opportunities everywhere. As I mentioned earlier, I think that mining is not the most direct answer for job growth, I would hope that you could investigate and explore other sources for this as well as undertake more detailed research on the negative effects of mining.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Strongly agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Very important

Expand regional tourism: Very important

Assist new sustainable energy, resources and infrastructure projects: Very important

Facilitate investment on Crown land: Neutral

Prioritise the use of Crown land for green and open space in urban areas:

Use Crown land to expand access to affordable housing: Neutral

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Very important

Partner with the organisations that serve our communities: Very important

Strengthen and uphold compliance to ensure a fair go: Very important

Make Aboriginal land transfers a priority – and see them as an opportunity: Very important

Contribute to the ongoing recognition of native title rights: Very important

Explore co-management of land to generate mutual benefits: Very important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: I like the concept of affordable housing, but not for this to go to tender or..... Be on a fire trail or in flood Plains, not to be multistorey or to be above low to medium housing density. I also think that business introduced can be reflective of the area and a draw card for people to visit.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities:	Important
Simplify licensing for domestic waterfront structures:	Of minor importance
Reduce red tape for government entities managing Crown land:	Very important
Provide tools and resources to volunteer Crown land managers:	Very important
Build understanding of native title:	Very important
Engage and support a new generation of Crown land managers:	Very important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	I think that waterfronts should not be built up. If they are, a 50 metre causeway should be introduced for land management and also so home owners do not assume ownership of the beachfront. Also, I would love to know where this would be... An affordable waterfrontage.....
<b>Other feedback</b>

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.:

Neutral

14. Please rate each of the priorities from 'Very important' to 'Not important at all'.

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.:

Of minor importance

Expand green space, sustainable quality of life and climate change resilience:

Very important

Strengthen and support evolving community connections:

Important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

Crown land is highly valued and should be enjoyed by individuals and diverse communities across the state. Its purposes should be focusing on First Nation preferences, parks, reserves, campgrounds, surf clubs, community halls and sustainable development to create renewable energy acting against Climate change not for commercial opportunities. Businesses, which aim to earn a profit from the land, should be required to pay for it like any other property owner.

**Please provide your feedback**

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:	Important
Expand regional tourism:	Important
Assist new sustainable energy, resources and infrastructure projects:	Neutral
Facilitate investment on Crown land:	Of minor importance
Prioritise the use of Crown land for green and open space in urban areas:	Very important
Use Crown land to expand access to affordable housing:	Not at all important
Support and restore environmental values on Crown land:	Important
Manage Crown land to build resilience in a changing climate:	Very important
Sustain the places where people come together:	Important
Partner with the organisations that serve our communities:	Important
Strengthen and uphold compliance to ensure a fair go:	Very important
Make Aboriginal land transfers a priority – and see them as an opportunity:	Neutral
Contribute to the ongoing recognition of native title rights:	Important
Explore co-management of land to generate mutual benefits:	
Collaborate with Aboriginal groups in each place to improve outcomes:	Important
Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:	I don't think Crown land should be used for housing. We would be better served increasing the density of land already in use for housing. Don't think bush Crown land should be given title to anyone wishing to use it as land bank to sell to developers. It should be available to all

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Strongly agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Very important
Standardise leases and licensing for common activities:	Important
Simplify licensing for domestic waterfront structures:	Neutral
Reduce red tape for government entities managing Crown land:	Neutral

Provide tools and resources to volunteer Crown land managers:	Important
Build understanding of native title:	Important
Engage and support a new generation of Crown land managers:	Very important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	A lot of Crown land is currently used for adhoc recreational sports like mountain biking and has been for over 25 years. This sort of non formal use should be taken into consideration when deciding Crown land outcomes.

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I use Crown land for recreation, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Biodiversity, Jobs and economic growth, Other

Other: Active recreation for adventure sports e.g. mountain biking, rock climbing/ bouldering

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: With respect to expanding green space there needs to be an emphasis in providing for active recreation in natural environments.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Very important

Expand regional tourism: Very important

Assist new sustainable energy, resources and infrastructure projects: Very important

Facilitate investment on Crown land: Important

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Neutral

Support and restore environmental values on Crown land: Important

Manage Crown land to build resilience in a changing climate: Important

Contribute to the ongoing recognition of native title rights: Neutral

Explore co-management of land to generate mutual benefits: Important

Collaborate with Aboriginal groups in each place to improve outcomes: Important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: I'm requesting access to Crown land for mountain biking in natural environments particularly on urban fringes for those living in cities. There is a need to provide MTB specific 'singletrack' trails as walking trails can't be shared due to current walking trail standards implementing stairs, that are non-conducive to cycling (up). That, and the general segregation of cyclists from pedestrians stance, which is the norm across existing tracks and trails. Reasons: Mountain biking on singletrack trails is a legitimate sport and is continuing to grow rapidly, insufficient mountain bike trails that meet the expectations of riders, active mindfulness, before and after work accessibility, Crown land needs to provide opportunities for active recreation where in close proximity to urban centres. Proximity to urban

centres for kids, so not reliant on the M & D taxi service to get out for a ride after school. Provision of options to engage in active recreation in natural settings, having a choice to ride, run or walk is very important. There needs to flexibility to adjust uses for recreation as recreational pursuits and sports evolve, change and new pursuits emerge. I'd like to see a better model for LALC's to generate incomes to better support their communities, sustain their cultural traditions and provide opportunities to engage in teaching and imparting their knowledge of this land without seemingly relying on selling land to the highest bidder for urban developments, as is often seen on the Northern Beaches of Sydney.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Strongly agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Important

Simplify licensing for domestic waterfront structures: Important

Reduce red tape for government entities managing Crown land: Very important

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Important

Engage and support a new generation of Crown land managers: Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Past State planning both Labour and Liberal have failed the people by providing insufficient space and access to active recreation in natural settings. We've been boxed into either highly developed urban/industrial zones or High Conservation natural spaces but with very limited public access and incredibly inflexible ways of how people can engage with it. Generally limited to walking access only. COVID-19 has really shown the importance of access to these natural spaces for unstructured recreation, and it's high time we broaden within reason recreational pursuits that can be undertaken on Crown land, the peoples land.

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Biodiversity

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Of minor importance

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

The problem with these generic priorities is that they may or may not be relevant to a particular piece of Crown land, so there is potential for confusion and perceived corruption.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.:

Strongly disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:

Of minor importance

Expand regional tourism:

Of minor importance

Assist new sustainable energy, resources and infrastructure projects:

Of minor importance

Facilitate investment on Crown land:

Of minor importance

Prioritise the use of Crown land for green and open space in urban areas:

Very important

Use Crown land to expand access to affordable housing:

Not at all important

Support and restore environmental values on Crown land:

Very important

Manage Crown land to build resilience in a changing climate:

Neutral

Sustain the places where people come together:

Of minor importance

Partner with the organisations that serve our communities:

Neutral

Strengthen and uphold compliance to ensure a fair go:

Very important

Make Aboriginal land transfers a priority – and see them as an opportunity:

Neutral

Contribute to the ongoing recognition of native title rights:

Neutral

Explore co-management of land to generate mutual benefits:

Of minor importance

Collaborate with Aboriginal groups in each place to improve outcomes:

Important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

It is disappointing that some of the outcomes appear to be meaningless. What does "manage Crown land to build resilience in a changing climate" mean in practical terms? What does "Partner with organisations that serve communities" mean? Is it to have exclusive clubs on Crown land that restrict the general public? What could "use Crown land to expand access to affordable housing" mean? How is it consistent with more open space? Sadly, it seems like property developer spin.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.:

Disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:

Very important

Standardise leases and licensing for common activities:	Not at all important
Simplify licensing for domestic waterfront structures:	Of minor importance
Reduce red tape for government entities managing Crown land:	Not at all important
Provide tools and resources to volunteer Crown land managers:	Important
Build understanding of native title:	Very important
Engage and support a new generation of Crown land managers:	Important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	Given the range of Crown land it seems crazy to try an standardise leases and licencing. They should be specific to the land. Reducing red tape merely reduces checks and balances to ensure appropriate and considered outcomes for the community.

**Other feedback**

	NSW has some wonderful coastline and it should be available to all residents. Some coastline is being restricted by excessive parking fees by local councils to effectively exclude non local residents to Crown land.
19. Please provide any other comments about the draft State Strategic Plan for Crown land.:	Northern Beaches council charges \$10 per hour to park at all it's beaches to access Crown land. Local residents can park unrestricted. A modest fee might be reasonable to ensure access, but the current arrangement disadvantages many people. It is noted that other councils provide outstanding facilities at no cost to encourage tourism and diversity to Crown land.

Explore co-management of land to generate mutual benefits: Important

Collaborate with Aboriginal groups in each place to improve outcomes: Neutral

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: commercial opportunity is a byproduct. As a lot of crown land is benefited by volunteer groups (Landcare, wildlife carers) that contribute to what people come to see. I also do not want to see more land rights council selling off their land. If it is important to them, they need funds and tools to maintain it for cultural reasons Affordable housing should NOT be included. This is not a good use for crown land - the real costs are not included here

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Strongly disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Very important
Standardise leases and licensing for common activities:	Neutral

Reduce red tape for government entities managing Crown land:	Not at all important
Provide tools and resources to volunteer Crown land managers:	Very important
Build understanding of native title:	Neutral
Engage and support a new generation of Crown land managers:	Important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

Make sure information and decision-making is transparent and providing tools are the only good enablers here. The rest is just code for economic activity. It'd be better than "simplifying leases" to ensure good indicators. Standardising may not be the right thing to do as can vary with different situations. Reducing red tape is code for increase economic activity. It's better to get the actual legislation right and not so confusing, then monitor situations. "Build understanding" of native title? What moron in the area doesn't already know?

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Strategic plan seems to be increase economic activity and pretend it is "use for all". The problem has been privatised use of crown land, not encouraging use by people and not for its inherent value and ecological services. The government has often been left crown land by someone who has realised its value for all, but most times the government cant manage it properly

20. Where did you hear about the State Strategic Plan?:

Other

State Strategic Plan for Crown land submission: 

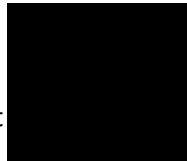

**Activity**

Name of Activity: State Strategic Plan for Crown Land

Our Reference:: SSP Crown Land

**Please provide your details**

- 1. First name:
- 2. Last name:
- 3. Do you identify as Aboriginal or Torres Strait Islander?:

4. Are you completing this survey as part of an organisation?: No

5. Organisation:

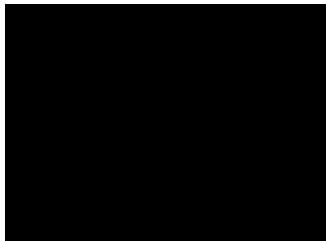

6. Postal/street address:

7. Suburb:

8. State:

9. Postcode:

10. Email:

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I am involved with a community or volunteer group that uses or maintains Crown land facilities

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Biodiversity, Other

Other: Affordable Housing. Native Regeneration.

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Neutral

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Of minor importance

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Neutral

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: Halt all logging of native forest. Halt the production of Fake Renewables such current practice of clearfelling important and biodiverse native forest to create woodchips to provide energy. Prevent planting of monocultural and flammable timber species.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Of minor importance

Expand regional tourism: Neutral

Assist new sustainable energy, resources and infrastructure projects: Neutral

Facilitate investment on Crown land: Neutral

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Very important

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Neutral

Partner with the organisations that serve our communities: Neutral

Strengthen and uphold compliance to ensure a fair go: Not at all important

Make Aboriginal land transfers a priority – and see them as an opportunity: Very important

Contribute to the ongoing recognition of native title rights: Very important

Explore co-management of land to generate mutual benefits: Neutral

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: Prevent exploitation of crown land for Fake Renewable energy as outlined on previous page.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Neutral

Simplify licensing for domestic waterfront structures: Not at all important

Reduce red tape for government entities managing Crown land:

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Neutral

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I am involved with a community or volunteer group that uses or maintains Crown land facilities, I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Of minor importance

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

Please do not prioritise jobs and economic growth for Crown Lands. Surely by now we must understand that keeping Crown Lands for their environmental and cultural value is more important than making a buck. Once it's sold off or used for commercial purposes, it's very hard to reclaim for the environment or for cultural or creative uses or simple enjoyment. Crown Land is for the community, not for Commercial Developers.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Not at all important

Expand regional tourism: Neutral

Assist new sustainable energy, resources and infrastructure projects: Not at all important

Facilitate investment on Crown land: Not at all important

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Not at all important

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Neutral

Sustain the places where people come together: Important

Partner with the organisations that serve our communities: Important

Strengthen and uphold compliance to ensure a fair go: Neutral

Make Aboriginal land transfers a priority – and see them as an opportunity: Very important

Contribute to the ongoing recognition of native title rights: Very important

Explore co-management of land to generate mutual benefits: Neutral

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

Some of these outcomes seem nice but in reality might lead to takeover of Crown Land by private interests, or by interests we really don't agree with. For example, while Sustainable Energy is great (we think Wind, Solar power, for example), if the Government decides that Gas is a great way to transition to a Sustainable future, then suddenly Fracking on Crown Land becomes a priority. So I would remove Sustainable Energy. Similarly, we all like the idea of affordable housing, but if this is a Crown Lands priority, suddenly all our Crown Land is overrun with apartments. This is NOT an outcome anyone wants for Crown Land. So, I would REMOVE: Innovative and Sustainable Regional Industries, Investment, Affordable Housing and CHANGE Building Resilience (what on earth does that mean anyway?), Strengthen and uphold compliance to ensure a fair go (what on earth does

this actually mean?) Explore co-management of land to generate mutual benefits (who would you be co-managing it with?).

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Neutral

Simplify licensing for domestic waterfront structures: Not at all important

Reduce red tape for government entities managing Crown land: Not at all important

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

I'm concerned that there is too much emphasis in this document on the use of Crown Land for commercial purposes. Crown Land is for the enjoyment of the public; it is not for the exploitation of the State, or anyone else for that matter, for commercial purposes. I'm also concerned that there is not enough emphasis on conserving environmental areas in this document. We MUST have mechanisms to conserve nature and the environment, and must not keep seeing this things as a 'resource' to be exploited for monetary gain. They are essential to our survival.

20. Where did you hear about the State Strategic Plan?: Other

Other: I found out about it via the Friends of Bondi Pavilion.

Contribute to the ongoing recognition of native title rights: Very important

Explore co-management of land to generate mutual benefits: Important

Collaborate with Aboriginal groups in each place to improve outcomes: Important

The draft strategic Plan doesn't seem to recognise enough the importance of the environment. Crown Lands need to be managed with utmost care and not always be considered as an opportunity for development. Since biodiversity is being depleted front and centre, the emphasis should be on recreation and conservation. For the sake of future generations the trashing of the environment has to stop and every decision be made to encourage local stakeholders and aboriginal people to look after these precious areas. Jobs badly needed. Crown Lands left untouched are one of the biggest tool in the fight against climate change. Travelling stock reserves have to be seriously protected to allow connectivity for wildlife to move between habitats and to protect threatened species.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Very important
Standardise leases and licensing for common activities:	Of minor importance
Simplify licensing for domestic waterfront structures:	Of minor importance
Reduce red tape for government entities managing Crown land:	Of minor importance
Provide tools and resources to volunteer Crown land managers:	Very important
Build understanding of native title:	Very important
Engage and support a new generation of Crown land managers:	Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

Due process to implement future decisions is paramount. Reducing red tape means allowing development to forge ahead without scrutiny. As far as I know we still live in a democracy! Crown Lands are the heart and soul of our State. I urge the Ministers and Commissioner to give more weight to our environment for the benefit of us all.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

20. Where did you hear about the State Strategic Plan?:

Other

Other: Through a friend.

**Privacy & confidentiality**

Please indicate your confidentiality preference from the following options::

**Activity**

Name of Activity: HORSE RIDING  
 Our Reference:: SSP Crown Land

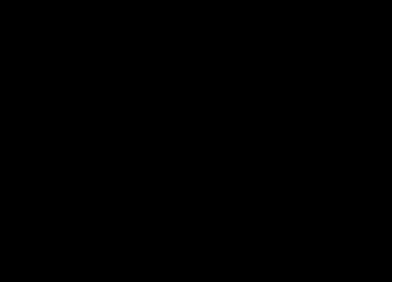

**Please provide your details**

- 1. First name:
- 2. Last name:
- 3. Do you identify as Aboriginal or Torres Strait Islander?:
- 4. Are you completing this survey as part of an organisation?:

No

- 5. Organisation:
- 6. Postal/street address:
- 7. Suburb:
- 8. State:
- 9. Postcode:
- 10. Email:

**Please provide your feedback**

- 11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?:

I use Crown land for recreation, Other

Other:

I walk my dog & ride my horse where allowed but desperately want to be able to ride my horse close to where I live & agist my horse in Western Sydney. Exercise my horse locally. Apparently it is illegal to ride a horse in the Western Sydney Parklands which I did not know as there are no signs stating this. I am 61 years old & would like to be able to ride my horse locally in safety (not out on the roads) without having to go to the Equestrian Centre which is expensive & requires a horse float which many riders do not own.

- 12. What use/s of Crown land do you value?:

Open or green space, Community use, Aboriginal land rights, Biodiversity, Jobs and economic growth, Renewable energy, Other

Other:

Being able to enjoy the fresh air & exercise by riding my horse safely, locally & free of charge. But I also think it would be fair if I had to pay a reasonable/affordable permit fee for this. An annual permit fee perhaps? All myself, & I'm sure many others want is a safe, local place to ride, to enjoy exercise just like everyone else who walk & bike ride.

**Please provide your feedback**

- 13. These are the best priorities for Crown land over the next 10 years.:

Agree

- 14. Please rate each of the priorities from 'Very important' to 'Not important at all'.

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.:	Important
Expand green space, sustainable quality of life and climate change resilience:	Important
Strengthen and support evolving community connections:	Important
Work with Aboriginal communities to realise the potential of their land rights:	Important
Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:	Please include Suburban areas not just regional & rural where possible & appropriate.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.:	Neutral
---	---------

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:	Important
Expand regional tourism:	Important
Assist new sustainable energy, resources and infrastructure projects:	Important
Facilitate investment on Crown land:	Neutral
Prioritise the use of Crown land for green and open space in urban areas:	Very important
Use Crown land to expand access to affordable housing:	Not at all important
Support and restore environmental values on Crown land:	Important
Manage Crown land to build resilience in a changing climate:	Important
Sustain the places where people come together:	Important
Partner with the organisations that serve our communities:	Important
Strengthen and uphold compliance to ensure a fair go:	Important
Make Aboriginal land transfers a priority – and see them as an opportunity:	Important
Contribute to the ongoing recognition of native title rights:	Important
Explore co-management of land to generate mutual benefits:	Important
Collaborate with Aboriginal groups in each place to improve outcomes:	Important
Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:	I'm unsure about housing on Crown Land. I would like consideration for access to Urban land eg Western Sydney Parklands for recreational horse riding.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Important

Standardise leases and licensing for common activities: Important

Simplify licensing for domestic waterfront structures: Important

Reduce red tape for government entities managing Crown land: Neutral

Provide tools and resources to volunteer Crown land managers: Important

Build understanding of native title: Important

Engage and support a new generation of Crown land managers: Important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: Allow Urban land access to horse riders, just like walkers & bike riders.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.: PLEASE consider horse riders. It is our hobby & our form of exercise, just like pushbike riders who have access & even dedicated pathways. I would also like to be able to enjoy my hobby & form of exercise locally & safely just like the bike riders please. Again, if absolutely necessary I would be willing to pay a fair affordable & reasonable permit fee but every other user enjoys it for free.

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Jobs and economic growth, Renewable energy

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Neutral

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

Growth in the region's should also be done in a way that compliments and realises the uniqueness of the existing places, its heritage and existing community values. The priorities need to include engagement with the community. There is not enough empathisis on engaging with the people on plans that will effect their land. This is particularly important should these priorities need to be translated for local Council level planning activities and provides clear message on what is expected.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Of minor importance

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Important

Facilitate investment on Crown land: Not at all important

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Not at all important

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Very important

Strengthen and uphold compliance to ensure a fair go: Neutral

Make Aboriginal land transfers a priority – and see them as an opportunity: Important

Contribute to the ongoing recognition of native title rights: Important

Explore co-management of land to generate mutual benefits: Of minor importance

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

Innovation should be industry led. Crown land should not be used or is responsible for providing affordable housing. This is the Governments role in Australia to provide housing. This outcome also contradicts the previous outcome of the need to prioritise green space. Affordable housing needs to be removed. All Crown land needs to be sustained period, not only where people come together frequently. In some cases this would fall under a local Council jurisdiction, who are paid by rate payers to sustain these. This outcome needs to aim higher. In one outcome it talks about priotising aboriginal land transfers followed by exploring co management of mutual

beneficial lands. It cant be both. It should say what land is highlighted to be co managed.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Important

Simplify licensing for domestic waterfront structures: Neutral

Reduce red tape for government entities managing Crown land: Of minor importance

Provide tools and resources to volunteer Crown land managers: Important

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: I dont agree that red tape should be reduced for government entities managing Crown land if anything it should be strengthened. I know of a local government who have made changes to Crown land without consent. This is problematic to undo once done. There needs to be more accountability for those managing Crown Land of the people.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.: Apolgoises I am using a phone to complete my responses so they may be in text speak. Given the importance amd enormity of this plan, it is not being pushed enough to get the level engagement it should. Put the video up on social media to get attention. I haven't seen an ad in the newspaper or tv about this either. Not everyone is on social media. Thanks

15. These are the best outcomes for Crown land over the next 10 years.: Strongly agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Very important

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Very important

Facilitate investment on Crown land: Important

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Important

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Important

Partner with the organisations that serve our communities: Important

Strengthen and uphold compliance to ensure a fair go: Important

Make Aboriginal land transfers a priority – and see them as an opportunity: Very important

Contribute to the ongoing recognition of native title rights: Very important

Explore co-management of land to generate mutual benefits: Important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Important

Standardise leases and licensing for common activities: Important

Simplify licensing for domestic waterfront structures: Very important

Reduce red tape for government entities managing Crown land: Important

Provide tools and resources to volunteer Crown land managers: Neutral

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Neutral

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

[Redacted]

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I am involved with a community or volunteer group that uses or maintains Crown land facilities

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Renewable energy

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Neutral

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Of minor importance

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: enabling jobs cannot be at the expense of crown land conservation or use. e.g. if it was creating jobs that would encourage people to learn about natural environment, rangers, tourism but not mining or development that in any way compromises its status or negates its use by native animals and community

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Important

Expand regional tourism: Not at all important

Assist new sustainable energy, resources and infrastructure projects: Very important

Facilitate investment on Crown land: Not at all important

Prioritise the use of Crown land for green and open space in urban areas: Very important

Use Crown land to expand access to affordable housing: Of minor importance

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Very important

Collaborate with Aboriginal groups in each place to improve outcomes: Very important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the Tourism is already having ill effect on much crown land. Tourism needs to be thought about as 'eco' that being the draw card otherwise you will find that tourism wrecks what is of value to tourists looking to find nature- an ever increasing cohort. Seaside towns are becoming holiday meccas that ruin the small community and rob the towns and villages of individuality

department should address in the State Strategic Plan?:

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Strongly disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Not at all important

Simplify licensing for domestic waterfront structures: Not at all important

Reduce red tape for government entities managing Crown land: Not at all important

Provide tools and resources to volunteer Crown land managers: Very important

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Neutral

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: Simplifying licences for domestic structures will ruin our coastline- many argue it already has. The coast is for all not just the elite. Keep the coasts for walks- that type of tourism can sustain towns and encourage people to enjoy. In the UK the ramblers association adds extraordinary economic value- domestic builds for the rich? Not so much.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Don't mess up crown lands for short term economic gains. Crown is crown. The management of NSW gov with tree clearing that has seen the removal of an extraordinary amount of natural habitat that only contribute to the extinction of Australian native wildlife. Then the rivers facing continual poisoning from runoff and irrigation practices that use loopholes to break important laws. The lack of support for bushfire affected communities does not help the trust in NSW gov in looking after crown land. We can't keep destroying our natural habitat. Scotts Head has irrevocably changed- and I've not met a resident who claims it's for the better. The Nambucca Valley Council handed the reins of Crown land to Reflections Holiday Park. They did a community consultation like this one, where it was agreed that Reflections would look after 40 acres of coastal Crown land. Bush Regen had been paid \$25000 a year to control weeds and look after that part of the coast. Dune care helped carry out this work in collaboration - but all with volunteers. Since this crown land was handed over 5 years ago, less than \$10000 is spent on looking after it. One care and Bush region cannot do this work effectively therefore the area is now full of weeds and private dwellings cut down trees for a view. That is a travesty. Therefore I cannot trust this consultation or councils and governments who care little for the consequences of actions but rather focus on short term profit. Particularly when loosening domestic licensing for coastal areas is being flagged.

20. Where did you hear about the State Strategic Plan?: Crown Lands website

Other: No one else I know has any idea about the existence of this survey

Support innovative and sustainable regional industries:

Important

Expand regional tourism:

Very important

Assist new sustainable energy, resources and infrastructure projects:

Very important

Facilitate investment on Crown land:

Neutral

Prioritise the use of Crown land for green and open space in urban areas:

Very important

Use Crown land to expand access to affordable housing:

Of minor importance

Support and restore environmental values on Crown land:

Important

Manage Crown land to build resilience in a changing climate:

Important

Sustain the places where people come together:

Very important

Partner with the organisations that serve our communities:

Very important

Strengthen and uphold compliance to ensure a fair go:

Important

Make Aboriginal land transfers a priority – and see them as an opportunity:

Neutral

Contribute to the ongoing recognition of native title rights:

Important

Explore co-management of land to generate mutual benefits:

Important

Collaborate with Aboriginal groups in each place to improve outcomes:

Important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.:

Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:

Very important

Standardise leases and licensing for common activities:

Important

Simplify licensing for domestic waterfront structures:

Neutral

Reduce red tape for government entities managing Crown land:	Important
Provide tools and resources to volunteer Crown land managers:	Very important
Build understanding of native title:	Important
Engage and support a new generation of Crown land managers:	Important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	

**Other feedback**

Build understanding of native title: Neutral

Engage and support a new generation of Crown land managers: Neutral

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Need to ensure climate change impact is highly considered with all aspects of the plan. How can I find where the Crown Land is located on our area. Biomass is a concern especially when our forest are still being logged even after losing so much during recent fires. Affordable housing is important but just as important is the right locations. Solar and wind energy generation considered more important than other forms mentioned and cleaner.

20. Where did you hear about the State Strategic Plan?:

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I am a Crown land manager

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Biodiversity, Jobs and economic growth

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Strongly agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Very important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Neutral

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries:	Very important
Expand regional tourism:	Very important
Assist new sustainable energy, resources and infrastructure projects:	Very important
Facilitate investment on Crown land:	Very important
Prioritise the use of Crown land for green and open space in urban areas:	Very important
Use Crown land to expand access to affordable housing:	Important
Support and restore environmental values on Crown land:	Very important
Manage Crown land to build resilience in a changing climate:	Very important
Sustain the places where people come together:	Important
Partner with the organisations that serve our communities:	Important
Strengthen and uphold compliance to ensure a fair go:	Neutral
Make Aboriginal land transfers a priority – and see them as an opportunity:	Neutral
Contribute to the ongoing recognition of native title rights:	Neutral
Explore co-management of land to generate mutual benefits:	Important
Collaborate with Aboriginal groups in each place to improve outcomes:	Important
Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:	Greater focus on protecting and prioritising the environment. Stronger and more proactive support in dealing with mining companies and their pollution

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Disagree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Important
Standardise leases and licensing for common activities:	Very important

Simplify licensing for domestic waterfront structures:	Very important
Reduce red tape for government entities managing Crown land:	Very important
Provide tools and resources to volunteer Crown land managers:	Very important
Build understanding of native title:	Important
Engage and support a new generation of Crown land managers:	Very important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	Why reduce red tape only for government entities managing Crown Land - at least they are paid to do it. What about the volunteers who are drowned by paperwork and spend untold amounts of time preparing Management Plans etc If you want any chance of engaging a new generation of Land Managers you need to make the task reasonable.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

20. Where did you hear about the State Strategic Plan?:

Correspondence from the department

There needs to be a better and more respectful recognition of volunteer contribution. More notice of training sessions - repeatedly short notice and only one local session. The planning for this Strategic Plan presentation was typical of this problem, the first session gave only a couple of hours notice and the second session a few days - yet it was a very interesting meeting with good use of technology. Why didn't you give the audience more notice. Crown Lands needs to help Land Managers be more effective with their time -in the last ten years there have been four different grant application forms (PRMF /CRIF), there might be more but we gave up applying every year - too time consuming. Crown Lands must be more realistic / commercial about whats required in terms of documentation. Our Plan of Management has taken months to complete - (budget \$40,000) which was donated time by Manager members - this is for a little reserve in a country time. a good deal of this documentation could and should be standardised and prepared on online. The current level of documentation is a terrible waste of volunteer resources and has put potential members off joining our group.

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I am involved with a community or volunteer group that uses or maintains Crown land facilities, I use Crown land for recreation, I care about Crown land management as a resident of New South Wales

Other: I want to see crown land respected as a public good

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Other

Other: I sense that the concept of passive use (the impact of crown land on people) is being underemphasised here

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Neutral

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Not at all important

Expand green space, sustainable quality of life and climate change resilience: Important

Strengthen and support evolving community connections: Neutral

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: What does "strengthen and support evolving community connections" mean ? It is hardly a standalone goal and could be deleted or included in the other three priorities.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Neutral

Expand regional tourism: Neutral

Assist new sustainable energy, resources and infrastructure projects: Neutral

Facilitate investment on Crown land: Neutral

Prioritise the use of Crown land for green and open space in urban areas: Neutral

Use Crown land to expand access to affordable housing: Neutral

Support and restore environmental values on Crown land: Neutral

Manage Crown land to build resilience in a changing climate: Very important

Sustain the places where people come together: Neutral

Partner with the organisations that serve our communities: Neutral

Strengthen and uphold compliance to ensure a fair go: Neutral

Make Aboriginal land transfers a priority – and see them as an opportunity: Important

Contribute to the ongoing recognition of native title rights: Important

Explore co-management of land to generate mutual benefits: Neutral

Collaborate with Aboriginal groups in each place to improve outcomes: Neutral

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: There have been some cynical transfers of public assets to Aboriginal Groups to the detriment of the public good . Further, there exists the underlying reality that all land was forcibly alienated from the previous inhabitants. This needs to be taken into account in any land transaction. At one level it is dealing in stolen goods .

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Very important
Standardise leases and licensing for common activities:	Important
Simplify licensing for domestic waterfront structures:	Neutral
Reduce red tape for government entities managing Crown land:	Neutral
Provide tools and resources to volunteer Crown land managers:	Neutral
Build understanding of native title:	Very important
Engage and support a new generation of Crown land managers:	Neutral
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	An "overarching enabler" would be that no action would lessen the public good of the Crown Land

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.: The categories of selection using the word "importance" can create a false impression, For example, "employment in regional areas" could be seen as important, but not through the lens of Crown Land use.

20. Where did you hear about the State Strategic Plan?: Other

Other: E-mail from friend

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?:  
I am involved with a community or volunteer group that uses or maintains Crown land facilities, I use Crown land for recreation, I care about Crown land management as a resident of New South Wales, Other

Other:  
I am passionate about Crown Land being effectively maintained and accessible for general public use, especially in compliance with lease agreements that are currently established. Caravan Park facilities contracted to service and maintain Crown land Reserves in our village do so without control standards being adhered to. Therefore the immediate reserve public areas are in disrepair and improper maintained. The dollars spent on such contract is sadly being wasted and outcomes are poor.

12. What use/s of Crown land do you value?:  
Open or green space, Community use, Aboriginal land rights, Biodiversity, Jobs and economic growth, Renewable energy, Other  
Other:  
Access for community, use . please be advised that the Reflections van park has sole keyed access over to portions that are community recreational areas, using such areas for overflow car parking for up to 50 vehicles and at times unsolicited camping.

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable Of minor importance

economic progress in regional and rural NSW.:

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: Crown lands dept must have clear consultation with community members in regard to future use , maintenance, recreational facilities, and hold local councils responsible to provide funds to maintain. Councils are excused from assisting crown land community spaces stating it is not their duty.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Neutral

Expand regional tourism: Of minor importance

Work with Aboriginal communities to realise the potential of their land rights:

Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

I would like to see Crown Land continue to be non-privatised. This is very important for future generations

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Important  
Expand regional tourism: Neutral  
Assist new sustainable energy, resources and infrastructure projects: Important  
Facilitate investment on Crown land: Of minor importance  
Prioritise the use of Crown land for green and open space in urban areas: Very important  
Use Crown land to expand access to affordable housing: Neutral  
Support and restore environmental values on Crown land: Very important  
Manage Crown land to build resilience in a changing climate: Very important  
Sustain the places where people come together: Important  
Partner with the organisations that serve our communities: Neutral  
Strengthen and uphold compliance to ensure a fair go: Neutral  
Make Aboriginal land transfers a priority – and see them as an opportunity: Important  
Contribute to the ongoing recognition of native title rights: Important  
Explore co-management of land to generate mutual benefits: Very important  
Collaborate with Aboriginal groups in each place to improve outcomes: Very important  
Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important  
Standardise leases and licensing for common activities: Important  
Simplify licensing for domestic waterfront structures: Neutral  
Reduce red tape for government entities managing Crown land: Neutral  
Provide tools and resources to volunteer Crown land managers: Very important  
Build understanding of native title: Very important  
Engage and support a new generation of Crown land managers: Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Crown Land will become more important with an increasing population. It is important to retain as much land as possible in order to enable use in the future.

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Not at all important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Important

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

The priority on indigenous land rights should be a higher priority. I understand the economic and social burden this creates for competing uses, but the crown should be putting compensatory justice at a higher priority and, as far as possible, permitting aboriginal land rights holders to have the opportunity to benefit from what rights remain to them. For example, if there would be today a land right it should be granted. If the Crown then needs the land for a school it should acquire it on commercial terms. It should not further degrade residual aboriginal rights because it would be inconvenient or expensive. I understand the delay in claims if impartially assessed is likely to be described as a disgrace, and the government needs to get on with addressing it. Within this context there is plenty of possibility for joint economic use including sustainable energy, environmental recovery and economic development. The point is for the rights of aboriginal communities to be enhanced so that they can fully participate and benefit in the life of the State.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Disagree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Not at all important

Expand regional tourism: Of minor importance

Assist new sustainable energy, resources and infrastructure projects: Of minor importance

Facilitate investment on Crown land: Important

Prioritise the use of Crown land for green and open space in urban areas: Important

Use Crown land to expand access to affordable housing: Of minor importance

Support and restore environmental values on Crown land: Important

Manage Crown land to build resilience in a changing climate: Important

Sustain the places where people come together: Important

Partner with the organisations that serve our communities: Important

Strengthen and uphold compliance to ensure a fair go: Very important

Make Aboriginal land transfers a priority – and see them as an opportunity: Very important

Contribute to the ongoing recognition of native title rights: Very important

Explore co-management of land to generate mutual benefits: Important

Collaborate with Aboriginal groups in each place to improve outcomes: Important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other Consistent with other comments, the priority needs to be foremost on outcomes for indigenous Australians. All the other objectives have their

outcomes the department should address in the State Strategic Plan?:

merits, but there are other options in a market economy for achieving most of them. Restorative justice should not be secondary to other possible uses.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.:

Agree

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:

Very important

Standardise leases and licensing for common activities:

Important

Simplify licensing for domestic waterfront structures:

Neutral

Reduce red tape for government entities managing Crown land:

Of minor importance

Provide tools and resources to volunteer Crown land managers:

Neutral

Build understanding of native title:

Very important

Engage and support a new generation of Crown land managers:

Important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

Ensure adequate resourcing for crown land management agencies to adequately fulfil their responsibilities within reasonable timeframes. (without that the rest is pretty meaningless)

**Other feedback**

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?: I am involved with a community or volunteer group that uses or maintains Crown land facilities, I use Crown land for recreation

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Renewable energy, Other

Other:

Recreation especially hiking and rockclimbing should be acknowledged and valued by council. Access to special cliffs (good climbing rock is rare in Australia) should be protected for the rock climbing community, which fuels indoor gyms, tourism and retail.

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Neutral

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Important

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Very important

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

More protection for recreational activities like hiking, biking and climbing. There seems to be a trend towards using national parks and e2 land for profit, this should not be their purpose. Access to natural areas for recreation is important and should be protected for user groups like rock climbers who offer stewardship of places rarely visited by others. Often access is denied due to private property crossing access trails or similar.

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Neutral

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

Support innovative and sustainable regional industries: Important

Expand regional tourism: Important

Assist new sustainable energy, resources and infrastructure projects: Very important

Facilitate investment on Crown land: Neutral

Prioritise the use of Crown land for green and open space in urban areas: Important

Use Crown land to expand access to affordable housing: Of minor importance

Support and restore environmental values on Crown land: Very important

Manage Crown land to build resilience in a changing climate: Important

Sustain the places where people come together: Very important

Partner with the organisations that serve our communities: Neutral

Strengthen and uphold compliance to ensure a fair go: Neutral

Make Aboriginal land transfers a priority – and see them as an opportunity: Neutral

Contribute to the ongoing recognition of native title rights: Important

Explore co-management of land to generate mutual benefits: Important

Collaborate with Aboriginal groups in each place to improve outcomes: Important

Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?: More value to recreational user groups (not motor sports) in terms of access. Walkers should have more right of way through private property, for example. Cliffs and caves should all be able to be accessed by the public. Many good climbing cliffs are on private property, those in e1 or e2 or other crown land should be protected for access.

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Very important
Standardise leases and licensing for common activities:	Of minor importance
Simplify licensing for domestic waterfront structures:	Neutral
Reduce red tape for government entities managing Crown land:	Of minor importance
Provide tools and resources to volunteer Crown land managers:	Neutral
Build understanding of native title:	Very important
Engage and support a new generation of Crown land managers:	Important
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.: Value recreational user groups. Fund renewable energy on a large scale. Anywhere windy should have windmills, ie; the illawarra escarpment. Stop mining under water catchments.

I am a Crown land manager, I use Crown land for recreation, I use Crown land when travelling away from home or visiting other places, I care about Crown land management as a resident of New South Wales

Other:

12. What use/s of Crown land do you value?:

Open or green space, Community use, Aboriginal land rights, Biodiversity

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.:

Disagree

14. Please rate each of the priorities from 'Very important' to 'Not important at all'.

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.:

Of minor importance

Expand green space, sustainable quality of life and climate change resilience:

Important

Strengthen and support evolving community connections:

Important

Work with Aboriginal communities to realise the potential of their land rights:	Important
Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:	Enabling jobs growth , economic development and commercial opportunities are appropriate only if implemented to achieve the other 3 priorities. Priority 2 should have a reference to maintaining biodiversity and native ecosystems.
<b>Please provide your feedback</b>	
15. These are the best outcomes for Crown land over the next 10 years.:	Agree
<b>16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.</b>	
Support innovative and sustainable regional industries:	Important
Expand regional tourism:	Of minor importance
Assist new sustainable energy, resources and infrastructure projects:	Very important

Explore co-management of land to generate mutual benefits:	Important
Collaborate with Aboriginal groups in each place to improve outcomes:	Very important
Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:	I think it is important to facilitate investment in sustainable infrastructure only if it is to the detriment of maintaining biodiversity and community aspirations for the land, whether indigenous or non indigenous communities. Expanded Regional tourism may be an outcome but the real outcome is achieving community aspirations for the Crown Land and this will attract tourists.
<b>Please provide your feedback</b>	
17. These are the best enablers to support delivery of the plan.:	Agree
<b>18. Please rate each of the enablers from 'Very important' to 'Not at all important'.</b>

Engage and support a new generation of Crown land managers:	Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:

It is important to resource community volunteers with a 3 year funding cycle instead of one year cycle with capacity to apply for additional funds for specific projects at least annually. A great deal of time and energy is invested in applying for a small allocation to undertake fundamental maintenance tasks such as weed control. Similarly there should be facility to limit financial obligations to maintaining/managing crown land, like clearing storm and fire damage or maintaining ageing infrastructure, without having to beg for 'favours' from local businesses and Lands department, and irrespective of insurance coverage. Local Councils should be resourced and empowered to provide assistance to Land Managers to facilitate management of reserves and other Crown Land community facilities.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

It is not clear to me which Crown Land is to be used for what purpose and what the criteria are for deciding how Crown Land will be used. For instance, could the 14 hectare Reserve that I help to manage be subsumed for affordable housing or a windfarm? The Plan does not generate confidence that Crown Land will be protected from developemnt that may be inconsid=stent with community aspirations. after all no matter what the land is currently used for it does belong to the people of NSW and as the Plan says it is held in trust for the people. I see too much inappropriate development in my local government area to have any confidence that the Government will protect its Crown Land, especially the land that is used for community purposes and environment objectives. It seems that economic development and pursuit of private profit trumps the long term consideration of community ownership and environment conservation.

20. Where did you hear about the State Strategic Plan?:

Correspondence from the department

Other:

12. What use/s of Crown land do you value?: Open or green space, Biodiversity

Other:

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Agree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Neutral

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Neutral

Work with Aboriginal communities to realise the potential of their land rights: Important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?: "Strengthen and support evolving community connections" should be clarified, it could mean anything from hunting to development to bush regeneration. "Jobs and growth" mentions "sustainable economic progress", but not sustainable environment management. If sustainable environment management was noted, it would be rated as very important

**Please provide your feedback**

15. These are the best outcomes for Crown land over the next 10 years.: Agree

**16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.**

- Support innovative and sustainable regional industries: Very important
  - Expand regional tourism: Very important
  - Assist new sustainable energy, resources and infrastructure projects: Very important
  - Facilitate investment on Crown land: Not at all important
  - Prioritise the use of Crown land for green and open space in urban areas: Very important
  - Use Crown land to expand access to affordable housing: Not at all important
  - Support and restore environmental values on Crown land: Very important
  - Manage Crown land to build resilience in a changing climate: Very important
  - Sustain the places where people come together: Of minor importance
  - Partner with the organisations that serve our communities: Important
  - Strengthen and uphold compliance to ensure a fair go: Neutral

Other:

12. What use/s of Crown land do you value?: Open or green space, Community use, Aboriginal land rights, Biodiversity, Renewable energy, Other

Other:

I would like to see crown land used to actively and strategically counter the effect of a growing population by maximising green spaces that provide ecosystem services such as carbon sequestration, refuges for native flora and fauna, keeping water in the landscape.

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.: Disagree

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.: Of minor importance

Expand green space, sustainable quality of life and climate change resilience: Very important

Strengthen and support evolving community connections: Neutral

Work with Aboriginal communities to realise the potential of their land rights: Very important

Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:

I think that on the background of the three recent environmental and human social catastrophes (record drought, record bush fires and CoVID19) that have all as their common cause population growth and increasing negative impact on natural buffer systems, the priorities are out of date. Putting jobs as the first priority shows that making money out of crown land and looking at it in the first instance as an economic resource to be exploited for 'business as usual' is what this strategy is about. The second priority does not ring very true to me without some explanation how it can be reconciled with the first. In my opinion, there needs to be a rethink on how public land can be used for the benefit of all residents, not only for a few to make money from. It should be used to actively counteract the impact of growing populations to enable long-term quality of life and even survival.

**Please provide your feedback**

- Manage Crown land to build resilience in a changing climate: Very important
- Sustain the places where people come together: Important
- Partner with the organisations that serve our communities: Important
- Strengthen and uphold compliance to ensure a fair go: Very important
- Make Aboriginal land transfers a priority – and see them as an opportunity: Very important
- Contribute to the ongoing recognition of native title rights: Very important
- Explore co-management of land to generate mutual benefits: Important
- Collaborate with Aboriginal groups in each place to improve outcomes: Very important
- Do you believe that any changes should be made to these outcomes or would you like to suggest any: Rearranging the priorities and outcomes to emphasise environmental and reconciliation benefits would be a good start.

other outcomes the department should address in the State Strategic Plan?:

**Please provide your feedback**

17. These are the best enablers to support delivery of the plan.: Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent: Very important

Standardise leases and licensing for common activities: Important

Simplify licensing for domestic waterfront structures: Not at all important

Reduce red tape for government entities managing Crown land: Neutral

Provide tools and resources to volunteer Crown land managers: Important

Build understanding of native title: Very important

Engage and support a new generation of Crown land managers: Very important

Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?: I think that a start would be to make clear that managing crown land has to be for the benefit of the community and not primarily for personal gain. Then appropriate resources have to be provided to help managers achieve this dual objective of providing community benefits and personal profits.

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

20. Where did you hear about the State Strategic Plan?: Social media, Print media, Other

Other:

I initially heard about the development of the strategic plan in the print and social media but was so disappointed by what appeared to be a focus on exploiting it for financial benefits and supporting further development and 'progress' at the expense of the environment, that I preferred not to follow it further. It just made me annoyed and feel disappointed and desperate, as I did not have the feeling I could do anything about what was planned anyway. Then it was recently raised as a matter of interest/concern in our endurance horse riding club. Crown land and road reserves are areas very important for training and holding competitions in our sport.

Yes

[Redacted]

**Please provide your feedback**

11. Which of the following options best indicates your current or past use or interest in Crown land in New South Wales?:

Other

Other:

I am a resident in [Redacted] where Crown Land has allowed Howley Park east to be used by the Gladesville Bridge Marina for the commercial operation of that business, without any regard for public recreation

12. What use/s of Crown land do you value?:

Open or green space, Community use, Other

Other:

Access for residents to the harbour foreshore

**Please provide your feedback**

13. These are the best priorities for Crown land over the next 10 years.:

Neutral

**14. Please rate each of the priorities from 'Very important' to 'Not important at all'.**

Enable jobs growth, commercial opportunities and sustainable economic progress in regional and rural NSW.:

Important

Expand green space, sustainable quality of life and climate change resilience:

Very important

Strengthen and support evolving community connections:	Very important
Work with Aboriginal communities to realise the potential of their land rights:	
Do you believe that any changes should be made to these priorities, or are there any new priorities, you would like to suggest?:	Public access / recreation to our land is most important and should not be at the expense of commercial operations
<b>Please provide your feedback</b>	
15. These are the best outcomes for Crown land over the next 10 years.:	Neutral
<b>16. Please rate each of the outcomes from 'Very important' to 'Not at all important'.</b>	
Support innovative and sustainable regional industries:	Important
Expand regional tourism:	Important
Assist new sustainable energy, resources and infrastructure projects:	Very important
Facilitate investment on Crown land:	Neutral
Prioritise the use of Crown land for green and open space in urban areas:	Important
Use Crown land to expand access to affordable housing:	
Support and restore environmental values on Crown land:	Important
Manage Crown land to build resilience in a changing climate:	Very important
Sustain the places where people come together:	Very important
Partner with the organisations that serve our communities:	Neutral
Strengthen and uphold compliance to ensure a fair go:	Important
Make Aboriginal land transfers a priority – and see them as an opportunity:	Important
Contribute to the ongoing recognition of native title rights:	Important
Explore co-management of land to generate mutual benefits:	Neutral
Collaborate with Aboriginal groups in each place to improve outcomes:	Important
Do you believe that any changes should be made to these outcomes or would you like to suggest any other outcomes the department should address in the State Strategic Plan?:	Public Land should be for the Public to use for recreational activities. This includes access to the foreshore and harbour
<b>Please provide your feedback</b>	
17. These are the best enablers to support delivery of the plan.:	Neutral

**18. Please rate each of the enablers from 'Very important' to 'Not at all important'.**

Make more of our information available and transparent:	Very important
Standardise leases and licensing for common activities:	Important
Simplify licensing for domestic waterfront structures:	Neutral
Reduce red tape for government entities managing Crown land:	Important
Provide tools and resources to volunteer Crown land managers:	Important
Build understanding of native title:	Very important
Engage and support a new generation of Crown land managers:	Neutral
Do you believe that any changes should be made to these enabling initiatives, or are there any other enabling initiatives you would like to suggest?:	Transparency has been a real problem where Crown Land has allowed Licences to exist on Public Land. These agreements and the decisions to allow such licences should be disclosed to the community and be made available on Crown Lands Web site

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

Over a number of decades, Crown Lands have stood by and allowed the Gladesville Bridge Marina to incrementally take over Howley Park east often without their prior approval or the prior consent of Council. It has rewarded this bad behaviour by subsequently granting licences that lock these commercial uses in place and lock the community out. On the 23 June 2020 the City of Canada Bay Council voted unanimously to support the grass-roots community campaign to reclaim Howley Park East for the people. The notice of motion states "Our foreshore is not for sale or alienation to private interest commercial interests providing no meaningful benefit for our local community. It is a scandal that the licence/lease for this parkland was renewed by Crown Lands without any community notice or consultation."

20. Where did you hear about the State Strategic Plan?:

Other

Other:

Community action

**Other feedback**

19. Please provide any other comments about the draft State Strategic Plan for Crown land.:

In regional communities with lake frontage many have dedicated areas of public reserves along the foreshore. However these public reserves have been landlocked by property owners and members of the public cannot access these reserves except by boat. This then allows the landholders to effectively own the crown public reserve and in some areas adding acres to their landholdings even though the DA shows public reserves. This then denies the local community to gather and enjoy what the crown legally owns. I am submitting that appropriate walkways be established to allow the public to access waterfront reserves which will enable a greater quality of life for members of the community

20. Where did you hear about the State Strategic Plan?:
